PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Maintained and enhanced **multiple software systems** for a pharmaceutical client, achieving **99.9% data integrity** and ensuring compliance with **pharmaceutical regulations** through proactive monitoring and incident response.
- Led day-to-day team activities, resolving over **150+ customer incidents** and **50+ change requests** per quarter for critical manufacturing systems, ensuring minimal disruption to production.
- Collaborated with **scientists, engineers, and IT stakeholders** to define requirements and implement system improvements, resulting in a **15% reduction in critical data discrepancies**.
- Produced and maintained comprehensive documentation, including **design, security, and testing protocols**, ensuring ongoing team compliance with company **Quality Standards and Practices** and successful audit outcomes.
- Monitored **system performance** across Python and Java applications, implementing proactive measures that prevented an estimated **10+ hours of potential downtime** and maintained high availability.
- Supported troubleshooting and root cause analysis for software-related issues in manufacturing environments, contributing to a **20% faster resolution time** for critical production bugs.

SKILLS

Programming Languages – Python, Java, SQL, R

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Data & Analytics – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn, Data Warehousing, Statistical Analysis

DevOps & CI/CD – Jenkins, Git, Jira, Confluence

Enterprise Systems – ERP Support, Change Management, REST APIs

Compliance & Domain – GMP, CSV, Data Integrity, Pharmaceutical Regulations, GDPR Awareness

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Pharmaceutical Manufacturing Data Integrity & Compliance Platform (HCL Technologies)

- Developed a **Python-based data validation framework** to ensure **100% data integrity** for critical manufacturing process data, processing over **50,000 records daily**.
- Implemented automated **CSV (Computer System Validation) documentation generation** for system changes, reducing manual effort by **40%** and ensuring adherence to **pharmaceutical regulations**.

- Designed and deployed **Power BI dashboards** to monitor system performance and compliance metrics, providing real-time insights to stakeholders and enabling proactive issue resolution, reducing critical alerts by **25%**.

Payments Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** by implementing new transaction monitoring features using **Java Spring Boot** and **PostgreSQL**, improving visibility into payment flows.
- Automated operational reporting using **Python scripts**, reducing manual report generation time by **70%** and ensuring timely delivery of key metrics for financial operations.
- Supported production environments with strict SLAs, contributing to the maintenance of **audit trails** and **GDPR awareness** for financial transactions.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
