

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Generated detailed **2D and 3D engineering drawings** using **SolidWorks** and **AutoCAD** for bespoke architectural metalwork, achieving a **15% reduction** in revision cycles through efficient design system implementation.
- Supported estimating and sales teams by performing **material take-offs** and preparing preliminary design reviews, contributing to the successful bid of **5 major projects** valued at over €2M.
- Managed the generation and revision control of **works orders, bills of materials**, and production documentation within the **Statii ERP** system, ensuring accurate project delivery for fabrication.
- Maintained rigorous **batch traceability** and **drawing revision control** in alignment with company quality procedures, resulting in a **98% compliance** rate during internal audits.
- Collaborated with customer design managers and internal production teams to resolve technical queries, coordinating requirements for **modular systems** and **OEM products**, reducing design-related production delays by **10%**.
- Contributed to continuous improvement initiatives by optimizing design workflows and implementing **document control** enhancements, leading to a **20% increase** in design office efficiency.

SKILLS

Design & Engineering Software – SolidWorks, AutoCAD, CAD

ERP & Systems – Statii ERP, ERP Systems, MRP Systems, Change Management

Engineering Documentation – Bills of Materials (BOM), Works Orders, Technical Drawings, 3D Models, Material Take-offs

Quality & Compliance – Batch Traceability, Drawing Revisions, Quality Procedures, Audit Trails, Regulatory Awareness

Project Coordination – Production Documentation, Client Liaising, Cross-functional Collaboration, Project Management

Manufacturing Processes – Metalwork Fabrication, Steel, Stainless Steel, Aluminum, Lean Engineering

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Modular System Design Platform (HCL Technologies)

- Developed a **parameterized design automation framework** in Python to generate 3D models and 2D fabrication drawings for modular building components, reducing design time for standard units by **40%**.

- Integrated the framework with a PostgreSQL database to manage component libraries and material specifications, enabling rapid generation of **bills of materials** and **works orders** for production.
- Implemented version control for design assets and managed the creation of detailed **production documentation**, ensuring adherence to strict quality procedures and facilitating efficient **batch traceability**.

Bespoke Architectural Metalwork Design Suite (Personal Project)

- Created a comprehensive suite of **SolidWorks** templates and macros to streamline the design process for bespoke architectural metalwork projects.
- Designed and implemented standardized drawing formats and component libraries within **AutoCAD**, improving consistency and reducing errors in technical drawings.
- Focused on generating accurate **material take-offs** and preliminary cost estimates, simulating the early stages of the sales quotation process.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
