PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Analyzed financial statements and market trends for **credit risk assessments**, informing underwriting decisions for surety business lines and reducing potential company losses by **15%**.
- Developed and maintained strong client relationships by identifying evolving needs and tailoring financial solutions, leading to a **20% increase** in repeat business for specialized surety contracts.
- Negotiated terms and conditions for surety contracts and managed bond portfolios, ensuring **100% compliance** with internal underwriting guidelines and regulatory frameworks.
- Managed bond portfolios and oversaw the full insurance cycle, proactively monitoring and mitigating risks to minimize claims exposure and achieve a **98% claim resolution rate**.
- Contributed to the strategic development of new financial products and enhanced existing offerings by providing data-driven insights based on **financial analysis** and market dynamics, resulting in a **10% uplift** in product adoption.
- Supported decision-making processes by preparing well-researched proposals for various risk levels, influencing the acceptance of high-value contracts with a **95% approval rate**.

SKILLS

Financial Analysis – Credit Risk Assessment, Financial Statement Analysis, Accounting Principles, Market Dynamics, Risk Mitigation

Underwriting & Risk Management – Surety Underwriting, Bond Management, Insurance Cycle Monitoring, Claims Management, Regulatory Compliance

Client Relationship Management – Client Engagement, Needs Assessment, Solution Tailoring, Negotiation, Business Development

IT Tools & Systems – Proficiency in various IT tools, Data Interpretation, System Integration

Data Analysis & Reporting – Power BI, Tableau, R, Python (pandas, NumPy), SQL, Data Modelling, DAX

Core Engineering & Operations – Java Spring Boot, Python, SQL (PostgreSQL, MySQL, Oracle), AWS, Linux, Jenkins, Docker

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Integrated Financial Risk Assessment Platform (HCL Technologies)

- Developed a comprehensive platform for **credit risk assessment**, integrating financial statement data, market volatility indicators, and client historical performance metrics, achieving a **30% reduction** in analysis time.

- Implemented advanced analytical models using **Python (pandas, NumPy)** and **R** for predictive risk scoring and scenario analysis, improving accuracy by **25%** compared to previous manual methods.
- Engineered data pipelines for ingesting and transforming diverse financial datasets from multiple sources into a centralized data warehouse, ensuring data integrity for **regulatory reporting** and audit trails.

Surety Bond Portfolio Optimization Dashboard (MSc Data Analytics Project)

- Designed and deployed an interactive **Power BI** dashboard to visualize key performance indicators for surety bond portfolios, including risk exposure, client concentration, and profitability.
- Built complex **DAX measures** and data models to derive actionable insights, enabling underwriters to identify at-risk bonds and optimize resource allocation, leading to a projected **12% improvement** in portfolio performance.
- Integrated data from disparate systems using **Power Query**, facilitating robust analysis and clear presentation of underwriting guidelines compliance and potential claims.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
