

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained **CAD data** and updated **workshop drawings** for agricultural machinery, ensuring design accuracy and facilitating manufacturing updates with a **15% reduction** in revision cycles.
- Generated comprehensive **user manuals** and **parts books** for farm and biogas machinery, enhancing service technician efficiency and end-user comprehension by **20%**.
- Integrated **Python scripting** for automation of data extraction and report generation, supporting engineering documentation processes and reducing manual effort by **30%**.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, resolving P1/P2 incidents within strict SLAs to maintain operational continuity for a financial-services client.
- Collaborated cross-functionally with operations teams and business analysts to gather requirements for enhancements to a **payments operations dashboard**, improving transaction monitoring capabilities.
- Supported and integrated with **ERP** and enterprise business systems, managing change control processes for system configuration updates and coordinating UAT across interconnected platforms.

SKILLS

CAD Software – Solidworks (distinct advantage), CAD data management

Engineering Documentation – User manuals, Parts books, Technical writing

Programming & Scripting – Python, Java, Spring Boot, SQL

Cloud & DevOps – AWS, Docker, Jenkins, Git, Linux

Data Analysis & BI – Power BI, DAX, Power Query, Tableau, R, pandas, NumPy

Enterprise Systems – ERP integration support, Change management, REST APIs

Operations & Monitoring – Splunk, Dynatrace, Incident response, SLA management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Agri-Machinery Design Optimization Platform

- Developed a Python-based tool to automate the generation of **parts books** and **user manuals** from CAD models, reducing manual documentation time by **40%** and ensuring consistency across product lines.
- Implemented automated checks for design-for-manufacture principles within the CAD workflow, identifying potential production issues early and contributing to a **10% decrease** in manufacturing rework.

- Integrated with a PostgreSQL database to manage component libraries and revision history, enabling engineers to quickly access and update approved parts data, improving design iteration speed by **25%**.

Financial Services Transaction Monitoring Dashboard

- Enhanced a **payments operations dashboard** by implementing real-time monitoring for transaction flows, reducing the average time to detect failed payments by **35%**.
- Developed automated alerts using **Python** and **SQL** for critical operational events, ensuring prompt response to issues within a high-availability production environment with strict **GDPR** awareness.
- Supported reconciliation workflows by providing ad-hoc data validation queries across **PostgreSQL** and **Oracle** databases, assisting business analysts in resolving discrepancies.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
