PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **Java Spring Boot microservices** for a connected vehicle platform, increasing data ingestion capacity by **40%** to support millions of devices.
- Automated **Python ETL scripts** for processing and validating large datasets, reducing manual data manipulation efforts by **75%** and ensuring data integrity for downstream analytics.
- Enhanced **SQL database performance** across PostgreSQL and Oracle instances by optimizing complex queries and implementing strategic indexing, achieving a **30% reduction** in report generation times for enterprise business systems.
- Managed **production incident response** for critical financial-services applications using **Splunk** and **Dynatrace**, restoring service within **99.9%** of SLA targets and minimizing business impact.
- Contributed to the design and implementation of **CI/CD pipelines** using **Jenkins** and **Git**, automating build, test, and deployment processes to accelerate release cycles by **20%**.
- Supported **ERP system integrations** via **REST APIs** and direct database connectivity, facilitating seamless data flow between interconnected operational platforms and improving cross-system reporting accuracy by **15%**.

SKILLS

Backend Development – Java, Spring Boot, Python, Flask, FastAPI, REST APIs, Microservices.

Databases & Data Management – PostgreSQL, MySQL, Oracle, SQL, Data Warehousing, ETL, Power Query.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins, CI/CD.

Analytics & BI – Power BI, Tableau, DAX, R, RStudio, pandas, NumPy, scikit-learn, Statistical Analysis, Machine Learning.

System Support & Operations – Production Support, Incident Response, Splunk, Dynatrace, Change Management, Jira, Confluence.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Connected Vehicle Telemetry Platform (HCL Technologies)

- Engineered a **scalable backend system** using **Java Spring Boot** and **AWS Lambda** to ingest and process real-time telemetry data from over **5 million connected vehicles**, achieving sub-second processing latency.
- Developed **Python data pipelines** to cleanse, transform, and load vehicle data into a **PostgreSQL data warehouse**, supporting analytical reporting and enabling a **25% improvement** in diagnostic data availability.

for OEMs.

- Implemented **robust monitoring and alerting** using **CloudWatch** and **Splunk**, ensuring **99.95% uptime** for the platform and enabling rapid response to operational issues.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Built and maintained a **payments operations dashboard** for a financial services client, providing real-time visibility into transaction flows and operational alerts.
- Developed **SQL queries** across PostgreSQL and Oracle to extract and aggregate transaction data, facilitating **reconciliation workflows** and identifying failed payment messages with **98% accuracy**.
- Collaborated with business analysts to gather requirements and support user acceptance testing for new dashboard features, ensuring alignment with **GDPR-aware** operational standards.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
