PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Resolved application and system issues by coordinating with engineering and customer support teams, reducing average ticket resolution time by **18%**.
- Administered and debugged application issues on server domains, ensuring **99.95%** application availability through root cause analysis and timely updates.
- Designed and maintained expertise in application process flows and systems for a global software-defined vehicle solutions provider, enhancing customer understanding of complex architectures.
- Organized and implemented medium-sized projects ranging from bug fixes to minor feature enhancements, assisting Software Engineers with all phases under guidance.
- Coordinated with the UAT department to facilitate releases and deployments across various environments, ensuring successful production outputs with **zero critical rollback incidents**.
- Prepared detailed documentation of all issues and solutions, recommending performance optimizations and providing comprehensive reports that led to a **12% reduction** in recurring incidents.

SKILLS

Core Engineering – Application Support, Root Cause Analysis, System Administration, Performance Optimization, Debugging, Incident Response, UAT Coordination

Database Technologies – Microsoft SQL Server, PostgreSQL, MySQL, Oracle, SQL Querying, Data Validation

Software Development – Java Spring Boot, Python Scripting, REST APIs, .NET

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Azure, Docker, Linux, Microsoft IIS

Development Tools – Jira, Confluence, Jenkins, Git, Postman

Analytics & Reporting – Power BI, Tableau, DAX, Power Query, R, Data Modelling, Reporting

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Global Connectivity Platform Test Automation Suite (Cubic Telecom)

- Developed an automated test suite using **Python** and **Postman** to validate API integrations for Cubic Telecom's global connectivity platform, covering **200+ countries**.
- Implemented end-to-end testing scenarios that simulated customer online test sessions and offline ticket support, achieving **98% test coverage** for critical application flows.

- Administered and debugged issues on server domains within the platform, identifying root causes and providing resolutions that improved application availability by **15%**.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Enhanced a payments operations dashboard for a financial-services client, improving transaction-flow monitoring and operational alerting for failed payment messages by implementing **Java Spring Boot** microservices.
- Supported production environments with strict SLAs, contributing to robust audit trails and GDPR-aware data handling, ensuring compliance and operational integrity.
- Collaborated with cross-functional teams to gather requirements and support User Acceptance Testing (UAT) for new features, streamlining reconciliation workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
