PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed the configuration and maintenance of electronic interfaces for outbound data exchange, reducing data transfer errors by **15%** through proactive troubleshooting of standard extracts like Spos 4x and Standard Trade.
- Provided level one support for standard extracts, investigating and resolving file generation or data issues, which accelerated issue resolution times by **20%** for internal Operations and Client Integration teams.
- Collaborated with Citco Technology to enhance internal tools, increasing automation levels for outbound reporting processes and enabling more intuitive self-service for operations teams, resulting in a **10%** reduction in manual intervention.
- Developed and maintained reporting interfaces as per internal and external business instructions, successfully addressing post-implementation discrepancies and ensuring correct delivery of standard extracts to Data Management, improving data accuracy by **99.5%**.
- Contributed to the design and implementation of workflow processes and improvements for the Data Operations Outbound Reporting team, identifying opportunities for efficiencies and risk mitigation, leading to a **5%** increase in overall team throughput.
- Analyzed and explained complex technical concepts related to data extracts and file flows to business users and clients, ensuring clear communication and understanding, which supported the successful onboarding of **3 new clients** during Q1 2024.

SKILLS

Data Operations & Reporting – Outbound Extracts, Standard Extracts (Spos 4x, Standard Trade, Taxlot), File Generation, Data Integration, Interface Configuration, Client Onboarding, Vendor Management, Data Delivery

Financial Services Domain – Portfolio Data Exchange, Trade Processing, Pricing Data, Position Data, Financial Instruments, Operations Support, Reconciliation Workflows

Technical Skills – SQL, Python, Java, Spring Boot, REST APIs, AWS, Linux, Git, Jenkins, Docker

Data Analysis & BI – Power BI, DAX, Tableau, Power Query, Data Modelling, Data Warehousing, Exploratory Data Analysis

Support & Troubleshooting – Level One Support, Incident Management, Root Cause Analysis, Proactive Issue Resolution, SLA Management

Process Improvement – Workflow Design, Automation, Efficiency Identification, Risk Mitigation, Standardization, Change Management

Databases – PostgreSQL, MySQL, Oracle, SQL Server (T-SQL)

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Client Reporting Interface Management (HCL Technologies)

- Engineered an automated system for managing and monitoring outbound client reporting interfaces, processing over **50,000 extract requests** per month with 99.9% success rate.
- Developed Python scripts to parse interface configuration files and validate data flows against defined business rules, reducing manual configuration errors by **25%**.
- Implemented comprehensive error logging and alerting using **Splunk**, enabling proactive identification and resolution of data discrepancies, decreasing average incident response time by **30%**.

Client Data Extract Standardization & Optimization

- Designed and implemented a standardized framework for generating common client data extracts (e.g., Spos 4x, Standard Trade, Taxlot), consolidating over **15 disparate legacy report formats**.
- Created reusable **Power BI** dashboards to visualize extract success rates, data quality metrics, and processing times, providing actionable insights to operations teams and improving data accuracy by **18%**.
- Streamlined the configuration process for new client reporting interfaces by developing a templated approach, reducing onboarding time for new clients by an average of **2 days**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
