+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and optimized **ETL/ELT pipelines** on the **Databricks Lakehouse Platform**, processing over 1 TB of raw financial data daily to support enterprise analytics, achieving a **15% reduction** in data processing latency.
- Implemented data quality controls and monitoring solutions for **Databricks data ingestion** and transformations, utilizing **Delta Live Tables** and reducing critical data errors by **20%**.
- Engineered **API integrations** for data platform ingestion, connecting disparate financial data sources and enabling real-time data availability for downstream analytics and AI initiatives, supporting **100+ API endpoints**.
- Managed and supported **AWS cloud infrastructure** for data processing workloads, including **S3, Lambda, and Glue**, ensuring **99.9% uptime** for critical data pipelines and adhering to **IAM best practices** for security governance.
- Contributed to a **payments operations dashboard** by developing Python scripts for data validation and automated alerting on transaction anomalies, enhancing operational visibility and reducing manual checks by **30%**.
- Collaborated within an **Agile/Scrum** framework to deliver features for an enterprise-wide **Centralized Data Platform (CDP)**, participating in sprint planning, daily stand-ups, and retrospectives to ensure timely project completion.

SKILLS

Data Engineering Platforms – Databricks, Delta Live Tables, Delta Lake, Unity Catalog

Cloud Services – AWS (S3, Glue, Lambda, EC2), Docker

Programming & Scripting – Python, SQL, Spark

Data Management – Data Modeling, ETL/ELT, Data Warehousing, Data Quality Controls

Development Tools – Git, Jenkins, Jira, Confluence

Methodologies – Agile/Scrum, CI/CD

Observability – Splunk, Dynatrace

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Financial Data Lakehouse for Analytics (HCL Technologies)

- Architected and implemented a scalable data lakehouse on **Databricks** using **Delta Lake**, ingesting and transforming 500GB+ of daily financial transaction data from multiple sources.
- Developed robust **ETL/ELT pipelines** with **Python** and **Spark**, incorporating data quality checks and monitoring, which improved data accuracy by **98%** and enabled timely reporting for business stakeholders.
- Integrated the data lakehouse with downstream analytics tools, facilitating **API integrations** and providing secure, governed access via **Unity Catalog**, reducing report generation time by **40%**.

Automated Transaction Monitoring System (HCL Technologies)

- Enhanced a financial-services operations dashboard by developing **Python** scripts to automate the monitoring of transaction flows and identify anomalies, reducing manual oversight by **25%**.
- Implemented real-time alerting mechanisms using **SQL** queries against PostgreSQL and integrated with monitoring tools like **Splunk** for P1/P2 incident response, ensuring adherence to strict SLAs.
- Supported the development and maintenance of reconciliation workflows, contributing to audit trail generation and ensuring data integrity within the production environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
