PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and maintained responsive user interfaces using **TypeScript** and **Angular**, translating business requirements into functional web components and achieving a **15%** improvement in user task completion time.
- Engineered scalable server-side logic with **Java** and **Spring Boot**, implementing Dependency Injection and Inversion of Control patterns to enhance code maintainability and reduce bug resolution time by **20%**.
- Managed data persistence and retrieval for backend services utilizing **MySQL** and **AWS RDS**, optimizing queries to reduce average API response latency by **30%**.
- Containerized applications using **Docker**, creating efficient build processes and enabling seamless deployment across development and production environments, reducing deployment failures by **25%**.
- Implemented robust source control management practices with **Git**, including branching strategies and code reviews, contributing to a **40%** reduction in merge conflicts.
- Supported enterprise business systems including ERP modules, coordinating change-control management for system configuration updates and facilitating UAT across interconnected systems.

SKILLS

Frontend – TypeScript, Angular, React, Node.js, NPM

Backend – Java, Spring Boot, C#, .NET Core, Kotlin, Dependency Injection, Inversion of Control

Databases – MySQL, PostgreSQL, Oracle, AWS RDS

Cloud & DevOps – AWS, Docker, Kubernetes, Git, Jenkins

Mobile – Swift, SwiftUI, SwiftPM, Objective-C

Data Analytics – Power BI, Tableau, DAX, Power Query, R, Python (pandas, NumPy, scikit-learn)

Enterprise Systems – ERP integration support, Change Management, Production Support, Splunk, Dynatrace

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Dairymaster Farm Management Platform (HCL Technologies)

- Architected a full-stack farm management system integrating **TypeScript** frontend with **Java Spring Boot** backend, deployed on **AWS** infrastructure managed by **Docker** and **Kubernetes**.
- Developed responsive user interfaces with **Angular**, managing application state and integrating with RESTful APIs, resulting in a **20%** increase in operational efficiency for farm managers.

- Implemented data persistence layer using **MySQL**, optimizing schemas and queries to support real-time data processing for sensor readings and livestock tracking, handling over **10,000** transactions per hour.

Financial Services Operations Dashboard Enhancement (HCL Technologies)

- Enhanced transaction monitoring capabilities for a financial-services dashboard by implementing new alerting rules in **Java**, reducing critical incident detection time by **35%**.
- Automated data validation checks using **Python** scripts, improving the accuracy of reconciliation workflows and decreasing manual review effort by **25%**.
- Collaborated with business analysts to refine requirements for operational dashboards, ensuring audit trail integrity and adherence to GDPR-aware production environment standards.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
