PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Reduced production waste by **18%** across key manufacturing lines by implementing **process mapping** and **root cause analysis** techniques, directly contributing to sustainability objectives.
- Enhanced operational efficiency by **15%** through the development and application of **standard work procedures** and **visual management** systems within the food manufacturing environment.
- Collected and analyzed **operational data** from production systems, supporting evidence-based decision-making for continuous improvement initiatives and achieving a **10% reduction** in energy consumption per unit.
- Supported the delivery of key sustainability objectives, including a **12% improvement** in waste reduction and a **5% increase** in responsible resource utilization through targeted process enhancements.
- Facilitated cross-functional **continuous improvement workshops**, embedding Lean ways of working and fostering a culture of problem ownership, which led to a **20% increase** in employee-driven improvement suggestions.
- Ensured consistent adherence to **food safety, quality, and health & safety standards** by integrating compliance checks into new process implementations and maintaining detailed audit trails.

SKILLS

Lean & Sustainability – Lean Principles, Continuous Improvement, Waste Reduction, Process Mapping, Root Cause Analysis, Standard Work, Visual Management, Sustainability Initiatives, Environmental Performance, Resource Management

Data Analysis & BI – Data Collection, Data Analysis, Performance Tracking, Evidence-Based Decision Making, Power BI, DAX, Tableau, R, Python (pandas, NumPy)

Manufacturing Operations – Food Manufacturing Environment, Production Facilities, Health & Safety Standards, Food Safety, Quality Assurance, GMP, Regulatory Compliance

Process Improvement Tools – Lean Tools & Techniques, Process Mapping, Root Cause Analysis, Standard Work, Visual Management, Continuous Improvement Workshops

Core Technologies – Python, Java, SQL, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence, PostgreSQL, MySQL, Oracle, Splunk, Dynatrace

MSc Data Analytics – Data Warehousing, ETL, Statistical Analysis, Exploratory Data Analysis, A/B Testing, Time-Series Analysis, Machine Learning Fundamentals, Big Data Concepts (Hadoop/Spark)

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Food Production Waste Reduction & Efficiency Platform (HCL Technologies)

- Developed a comprehensive **data analytics platform** using Python and SQL (PostgreSQL) to monitor production line efficiency and identify key waste drivers, achieving a **15% reduction** in material waste.
- Implemented **Power BI dashboards** to visualize real-time production metrics, enabling operations teams to track performance against targets and facilitate rapid response to deviations, improving process stability by **22%**.
- Integrated operational data streams from legacy systems via custom Python scripts and SQL queries, creating a unified view of production flow and supporting **continuous improvement initiatives** with actionable insights.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Engineered and maintained a **payments operations dashboard**, enhancing transaction flow monitoring and operational alerting for failed payment messages, contributing to a **99.9% processing uptime**.
- Automated data validation and reconciliation workflows using Python scripts and SQL queries across PostgreSQL and Oracle databases, reducing manual error rates by **30%**.
- Collaborated with cross-functional teams to gather requirements for new alerting rules and reporting features, improving incident response times by **25%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
