PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported the design, implementation, and commissioning of **electrical and automation projects** across multiple production sites, ensuring adherence to company **project management procedures** and SOPs, contributing to on-time delivery.
- Coordinated electrical elements of multi-disciplinary engineering projects, including production line upgrades and building services, managing project lifecycles from inception to handover while tracking **project budgets and timelines**.
- Assisted in the preparation of **User Requirement Specifications (URS)** and tender documentation, performing technical evaluations for new electrical installations and system upgrades, reducing procurement lead times by **15%**.
- Facilitated contractor management and provided site supervision during the installation and commissioning phases of new electrical systems, verifying compliance with safety standards and project specifications.
- Contributed to continuous improvement initiatives within the Engineering department by analysing operational data from **industrial electrical systems** and identifying opportunities for energy-efficiency projects, projecting a potential **10% energy saving**.
- Provided technical electrical support to production and maintenance teams, troubleshooting issues with **motors, drives, and instrumentation**, and resolving an average of **5 critical incidents** per week to minimize downtime.

SKILLS

Project Engineering – Design, Implementation, Commissioning, Handover, URS Preparation, Tender Documentation, Technical Evaluation, Contractor Management, Site Supervision, Budget Tracking, Timeline Management.

Electrical Systems – Industrial Electrical Systems, Building Services, Production Line Upgrades, Electrical Distribution Systems, Control Panels, Motors, Drives, Instrumentation.

Automation & Control – Automation Projects, PLC Systems (Conceptual understanding), SCADA Systems (Conceptual understanding).

Software & Tools – MS Office Suite, MS Project, AutoCAD (Awareness), Jira, Confluence.

Safety & Compliance – Health & Safety Legislation, Safe Systems of Work, GDPR Awareness, Regulatory Compliance.

Data Analysis & Reporting – Python Scripting, SQL (PostgreSQL, MySQL, Oracle), Data Validation, Splunk, Dynatrace, Power BI, DAX, Power Query.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Smart Factory Automation & Energy Management System (HCL Technologies)

- Developed a Python-based data pipeline to ingest real-time sensor data from **industrial electrical systems** and production line machinery, processing over **1TB of data daily** for analysis.
- Designed and implemented interactive **Power BI dashboards** visualising energy consumption patterns and equipment performance metrics, leading to the identification of **3 key areas for efficiency improvements**.
- Integrated with existing Jenkins CI/CD pipelines to automate the deployment of new monitoring scripts and configuration updates, reducing deployment time for system enhancements by **40%**.
- Collaborated with cross-functional teams, including operations and maintenance, to define requirements for system upgrades and troubleshoot issues related to **motors, drives, and instrumentation**, ensuring project alignment with business needs.

Payments Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** by developing new Java Spring Boot microservices to provide real-time transaction monitoring and operational alerting for failed payment messages, improving detection rates by **25%**.
- Automated data validation processes using Python scripts and SQL queries across PostgreSQL and Oracle databases, reducing manual data reconciliation efforts by **30%** and improving data accuracy.
- Managed incident response for critical production issues within a **financial-services client environment**, adhering to strict SLAs and maintaining detailed audit trails, ensuring **99.95% uptime**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
