PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Resolved an average of **30+ end-user IT issues per week** through a ticketing system, phone, and email, achieving a **95% first-contact resolution rate** by diagnosing and fixing hardware, software, and network problems.
- Automated user account provisioning and deprovisioning for **150+ new hires annually** by developing Python scripts that integrated with Active Directory, reducing manual setup time by **70%**.
- Supported the administration of **Microsoft 365** for over **500 users**, managing email accounts, OneDrive, and Teams configurations to ensure seamless collaboration.
- Maintained and updated IT asset inventory for **200+ devices**, ensuring accurate tracking of hardware and software licenses through meticulous record-keeping and regular audits.
- Assisted with basic network troubleshooting, including **Wi-Fi, LAN, and VPN connectivity**, successfully resolving **90% of reported network access issues** for remote and on-site staff.
- Documented over **50 common IT troubleshooting steps and solutions** in Confluence, creating a knowledge base that decreased average resolution time for recurring issues by **20%**.

SKILLS

Helpdesk & Support – First-line support, Ticketing Systems, Incident Management, Customer Service, Problem-Solving, Hardware Troubleshooting, Software Troubleshooting

Systems Administration – Windows, Microsoft 365, Active Directory, User Account Management, IT Asset Management, System Updates, Device Configuration

Networking – Basic Network Troubleshooting, Wi-Fi, LAN, VPN, Router Configuration, Switch Configuration, Access Point Support

Automation & Scripting – Python, Shell Scripting, ETL, Data Pipelines

Enterprise Systems – ERP Support, Business Systems Integration, Change Management, REST APIs, SQL (PostgreSQL, MySQL, Oracle)

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

Development & CI/CD – Java, Spring Boot, Jenkins, Git

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated IT Onboarding and Asset Management System

- Developed a Python-based application to streamline the onboarding process for new employees, automating the creation of **100+ user accounts** across Active Directory and Microsoft 365 per quarter.
- Integrated with an IT asset tracking database to automatically assign and provision hardware (laptops, monitors) and software licenses, reducing manual allocation errors by **15%**.
- Created a centralized dashboard displaying asset status, user assignments, and active support tickets, improving visibility for IT operations and enabling faster response times to user requests.

Financial Services Transaction Monitoring Dashboard Enhancement

- Enhanced a payments operations dashboard by implementing real-time monitoring for transaction flows, reducing the average time to detect failed payment messages from **30 minutes to under 5 minutes**.
- Developed Python scripts to automate the reconciliation of transaction data from multiple sources, improving accuracy and reducing manual reconciliation effort by **40%**.
- Collaborated with business analysts to refine alerting mechanisms for critical payment processes, ensuring adherence to strict SLAs and enhancing audit trail capabilities for regulatory compliance.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
