PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Prepared and reviewed preliminary designs and detailed drawings for infrastructure projects, ensuring adherence to client specifications and regulatory guidelines, reducing design iteration cycles by **15%**.
- Administered construction contracts by monitoring project schedules and budgets, achieving project delivery targets and maintaining cost efficiencies within **5%** variance.
- Liaised with clients to deliver engineering designs as directed by Project Managers, translating complex requirements into actionable technical specifications and drawings.
- Procured Site Investigation and Building/Civil Engineering Contracts, evaluating vendor proposals and ensuring compliance with procurement policies.
- Assisted Project Managers in the preparation and assessment of tender documents, contributing to the successful award of **3 major** infrastructure projects.
- Managed cross-system integrations via **REST APIs** and database flows across **PostgreSQL** and **Oracle**, supporting enterprise business systems and ERP modules.

SKILLS

Engineering Software – AutoCAD 2D, AutoCAD 3D, Autodesk REVIT, MicroDrainage, ArcGIS, MapInfo

Project Management – Microsoft Project, Contract Administration, Tender Preparation, Tender Assessment, Budget Management, Schedule Management

Core Engineering – Civil Engineering Design, Structural Engineering Design, Building Design, Infrastructure Design, Site Investigation

Data & Reporting – Microsoft Access, Data Analysis, Report Preparation, Technical Specifications

Client & Stakeholder Management – Client Liaison, Interpersonal Skills, Verbal Communication, Written Communication

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

North Dublin Drainage and Infrastructure Design Platform

- Developed and managed preliminary and detailed design drawings for a new urban drainage system using **AutoCAD 3D** and **MicroDrainage**, specifying pipe sizes and gradients to manage anticipated rainfall runoff for a **50-hectare** development area.
- Procured and administered construction contracts for the drainage works, conducting site investigations and tender assessments, ensuring adherence to **PWMF Forms of Contract** and project budgets, resulting in a **7%**

cost saving.

- Liaised directly with the client's project management team and local authorities to integrate design requirements, address site constraints, and secure necessary approvals, completing the design phase **2 weeks ahead** of schedule.

Enterprise Business Systems Integration & Support (HCL Technologies)

- Supported and integrated with enterprise business systems and ERP modules for a financial services client, resolving production issues and ensuring **99.9% uptime** for critical operational platforms.
- Automated data validation processes and managed schema changes across **PostgreSQL** and **Oracle** databases using Python scripting, reducing manual data reconciliation efforts by **40%**.
- Participated in change-control management for system configuration updates and coordinated User Acceptance Testing (UAT) for new feature rollouts, ensuring smooth post-go-live transitions.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
