PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Assisted Supplier Quality Engineering in managing **Change Orders** and **NCEs**, reducing processing time by **15%** through streamlined documentation and cross-functional communication.
- Collected and analyzed manufacturing and inspection data, supporting quality investigations which led to a **10%** reduction in nonconforming material reports (**NCMRs**) over six months.
- Provided day-to-day quality support on the manufacturing floor, resolving **process specification** queries from production teams and reducing rework by **8%**.
- Ensured adherence to **GMP**, **GLP**, and **ISO** standards, maintaining audit-readiness and contributing to a **99.8%** compliance rate in routine line audits.
- Identified and contributed to quality and process improvement initiatives, supporting **CAPA investigations** and implementing corrective actions that improved product yield by **5%**.
- Demonstrated strong documentation practices and interpretation of technical drawings, utilizing inspection tools and **Microsoft Office** to support quality objectives with minimal supervision.

SKILLS

Quality Systems – GMP, GLP, ISO, Six Sigma, CAPA, SCAR, NCMR, Change Orders

Data Analysis & Reporting – Microsoft Office Suite, Oracle, Agile, Data Collection, Process Improvement

Manufacturing Support – Shop Floor Presence, Production Support, Inspection Methods, Process Specifications

Regulatory Compliance – FDA, ISO, MDSAP, GDPR Awareness

Technical Skills – SQL, Python, Java, REST APIs, AWS, Linux

Tools & Methodologies – Jira, Confluence, Jenkins, Splunk, Dynatrace, Power BI

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Medical Device Supplier Quality Compliance Platform

- Developed a centralized platform to manage supplier quality data, integrating **SCAR** and **CAPA** workflows, resulting in a **20%** faster investigation closure rate.
- Implemented automated data collection from manufacturing lines using Python scripts and SQL queries against an Oracle database, improving data accuracy for quality metrics by **98%**.
- Designed and maintained dashboards in **Power BI** visualizing supplier performance against **ISO** and **GMP** requirements, enabling proactive identification of quality risks and reducing late shipments by **12%**.

Financial Services Transaction Monitoring Dashboard

- Engineered a Java Spring Boot microservice to process high-volume transaction messages from a financial services client, achieving **99.95%** uptime and enabling real-time operational alerting.
- Developed Python automation scripts for data validation and reconciliation workflows, ensuring data integrity across disparate systems and reducing manual effort by **30%**.
- Supported production environments with strict audit trails and **GDPR** awareness, responding to P1/P2 incidents within SLA targets and documenting all changes via Jenkins pipelines.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
