PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Executed comprehensive manual and exploratory testing for consumer-facing PC applications, validating new features and ensuring release readiness for **Dolby Access**.
- Designed, executed, and maintained over 200 detailed test cases based on software requirements and technical specifications, achieving **98% test coverage** for assigned application modules.
- Participated in rigorous release validation, regression testing, and smoke testing cycles, contributing to a reduction in critical post-release defects by **15%**.
- Documented and meticulously reported over 150 defects using **Jira**, collaborating with software engineers to support investigation and confirm resolutions, reducing average bug resolution time by **10%**.
- Developed and maintained test documentation, including test plans and execution reports, improving test coverage and consistency by **20%** across the QA team.
- Supported quality assurance for Windows-based desktop applications, performing detailed functional, usability, and performance testing to uphold product stability.

SKILLS

Quality Assurance – Manual Testing, Exploratory Testing, Test Case Design, Regression Testing, Release Validation, Smoke Testing, Defect Reporting, Test Documentation

Application Support – Consumer-Facing Applications, PC Applications, Windows Desktop Applications, Stability, Reliability

Core Technologies – Java, Python, SQL, Spring Boot, REST APIs, AWS, Docker, Linux

DevOps & CI/CD – Jenkins, Git, Code Reviews, Change Management, Production Support, Incident Response

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Enterprise Systems – ERP Support, Business Systems Integration, UAT Coordination, Splunk, Dynatrace

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

PC Application Quality Assurance Suite (Dolby Laboratories)

- Developed a comprehensive test suite for consumer-facing PC applications, focusing on manual and exploratory testing methodologies to enhance product stability and user experience.
- Authored over 300 detailed test cases and scripts in **Jira**, covering functional requirements, performance benchmarks, and regression scenarios, leading to a **25% reduction** in critical bugs reported post-launch.

- Integrated with **CI/CD pipelines** using Jenkins for automated smoke tests and release validation, ensuring consistent quality across multiple application versions and reducing manual validation effort by **30%**.

Payments Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a financial-services payments operations dashboard, implementing transaction monitoring and operational alerting for failed payment messages, improving system oversight.
- Automated data validation processes using **Python** and **SQL** across PostgreSQL and Oracle databases, reducing manual data reconciliation time by **40%**.
- Supported production environments with strict SLAs, contributing to audit trail maintenance and adherence to GDPR awareness within the financial-services domain.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
