+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed **Python** and **Java** backend services on **AWS**, processing over 1 million financial transactions daily to detect and respond to cybercrime patterns, reducing fraudulent activity by **15%**.
- Designed and deployed **agentic systems** and **AI-powered workflows** using **Python** and **SQL**, automating the investigation of phishing and brand abuse incidents, decreasing manual review time by **30%**.
- Built production-grade **APIs** and **data pipelines** with **Java Spring Boot** and **PostgreSQL**, converting cybercrime intelligence into scalable customer protections and reducing customer-reported abuse by **12%**.
- Managed end-to-end system lifecycles from design to production monitoring using **Jenkins** and **Splunk**, ensuring high availability and rapid response to incidents, achieving **99.95%** uptime for critical security services.
- Investigated complex cybercrime patterns including digital identity and credential theft, translating findings into durable engineering solutions and improved **detection logic** that blocked **10,000+** malicious attempts monthly.
- Operated and improved distributed systems on **Linux** environments, debugging and monitoring security applications to maintain quality and operational discipline, contributing to a **20%** faster incident resolution rate.

SKILLS

Languages – Python, Java, SQL, R, Bash

Backend & Frameworks – Spring Boot, Flask, FastAPI, NestJS, Node.js

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn, RStudio

Security & Cybercrime – Phishing Investigation, Brand Abuse Analysis, Digital Identity Crime, Threat Detection, Agentic Systems, AI Workflows

Methodologies – Agile, Scrum, CI/CD, Incident Response, Change Management, Data Warehousing

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Autonomous Cybercrime Intelligence Platform (HCL Technologies)

- Engineered an autonomous system using **Python** and **FastAPI** to ingest and correlate threat intelligence feeds, reducing manual research effort by **40%**.

- Developed **AI-native workflows** with **scikit-learn** and **Pandas** to classify and prioritize cybercrime alerts, improving the accuracy of automated investigations by **25%**.
- Built a **PostgreSQL** data store and a **REST API** for querying enriched threat data, enabling security analysts to investigate incidents **2x faster**.

Real-Time Transaction Monitoring Dashboard (HCL Technologies)

- Developed a **Java Spring Boot** microservice to process and monitor transaction flows from a financial-services client, achieving a throughput of **1,000 transactions per second**.
- Implemented operational alerting and reporting using **Splunk** and **Python**, reducing critical incident detection time by **50%** and ensuring adherence to strict SLAs.
- Collaborated with business analysts to define requirements for transaction monitoring and reconciliation workflows, supporting regulatory compliance and audit trails.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
