PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed **Spring Boot** microservices for orchestrating **LLM-powered agents**, integrating with **OpenAI specs** and **MCP** clients/servers, achieving a **20%** reduction in agent setup time.
- Implemented **tool execution** layers and **function calling** mechanisms for agentic workflows, enhancing reliability by incorporating retries and guardrails that reduced error rates by **15%**.
- Built **APIs** and event-driven pipelines to manage agent requests, context assembly via **RAG** and embeddings, and result streaming, processing over **10,000** agent interactions daily.
- Integrated with **GitHub** webhooks and Actions to automate PR review bots and **Cline** workflows, streamlining developer automations and reducing manual review cycles by **25%**.
- Enhanced **observability** by implementing comprehensive logs, metrics, and traces using **Splunk** and **Dynatrace**, creating dashboards that improved system reliability and performance monitoring.
- Authored extensive **unit and integration tests** for backend services, automating builds and deployments via **Jenkins** pipelines, which contributed to a **99.9%** uptime for critical agent services.

SKILLS

Backend Development – Java, Spring Boot, Microservices, REST APIs, Event-Driven Architecture

AI/ML Agents – LLMs, OpenAI Specs, MCP, Tool Execution, Function Calling, RAG, Embeddings

Developer Tools Integration – GitHub APIs, GitHub Actions, Cline, Claude Models

Cloud & DevOps – AWS, Docker, Jenkins, CI/CD, Linux, Observability (Splunk, Dynatrace)

Databases & Data Handling – SQL (PostgreSQL, MySQL, Oracle), Data Modelling, Data Warehousing

Programming Languages – Java, Python, SQL, R

Data Visualization & BI – Power BI, DAX, Tableau, Power Query

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Intelligent Code Review Agent (HCL Technologies)

- Engineered an AI-powered agent using **Java Spring Boot** to analyze code changes, leveraging **OpenAI specs** and **Claude models** to provide automated feedback on pull requests, reducing review time by **30%**.
- Developed a **tool execution** layer that enabled the agent to interact with **GitHub APIs** for fetching code context and creating review comments, integrating RAG for relevant documentation lookups.

- Implemented robust error handling, retries, and safety checks for the agent's interactions, ensuring reliable operation across thousands of daily code commits and maintaining **99.5%** successful analysis rate.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Developed and maintained a critical **payments operations dashboard** for a financial services client, focusing on real-time **transaction monitoring** and alerting for failed payment messages.
- Automated data ingestion and validation processes using **Python** scripts and **SQL** queries across PostgreSQL and Oracle databases, ensuring data integrity for reconciliation workflows.
- Managed production support, including P1/P2 incident response and SLA adherence, within a highly regulated environment requiring strict audit trails and adherence to GDPR awareness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
