PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Resolved **95%** of incoming hardware and software support requests prior to escalation by diagnosing and fixing issues across desktops, laptops, and printers using **Linux** and **Windows** environments.
- Implemented and modified **existing applications** based on user needs and business requirements, ensuring all desktop and laptops were patched to the highest available level, reducing critical vulnerabilities by **40%**.
- Updated all user queries through the **incident logging system**, performing follow-ups to confirm needs were met, achieving a **98%** user satisfaction rating through proactive communication.
- Provided comprehensive **hardware support** for PCs, laptops, and printers, configuring new machines and ensuring optimal performance and security standards were maintained.
- Supported and integrated with **enterprise-level systems**, including ERP modules and operational platforms, managing change control for system configuration updates and coordinating UAT.
- Developed **Python scripts** for automation and data pipelines, reducing manual processing time for IT support tasks by **30%** and improving data accuracy.

SKILLS

Technical Support – Hardware Support, Software Support, Incident Logging, Problem Solving, MS Office Support

Operating Systems – Linux, Windows

Scripting & Automation – Python, Shell Scripting

Enterprise Systems – ERP Support, Application Implementation, Change Management

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Databases & APIs – SQL (PostgreSQL, MySQL, Oracle), REST APIs

Monitoring & Logging – Splunk, CloudWatch, Dynatrace

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise IT Service Desk Automation Platform (HCL Technologies)

- Developed a **Python-based automation tool** to streamline the resolution of common hardware and software issues, reducing average ticket resolution time by **25%**.
- Integrated the tool with the existing **incident logging system** and **Jira**, ensuring all support requests and resolutions were accurately tracked and documented.

- Implemented automated patching and configuration scripts for **Windows** and **Linux** workstations, ensuring **99%** compliance with security policies across a fleet of 500+ devices.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Engineered real-time transaction monitoring and alerting for a financial services client's payments operations dashboard, achieving **99.9% uptime**.
- Developed automated reconciliation workflows using **SQL** and **Python**, reducing manual reconciliation efforts by **60%** and improving data accuracy.
- Managed production support and incident response for critical payment message flows, ensuring adherence to strict SLAs and audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
