PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported senior engineers and project managers in the delivery of the **Drogheda Wastewater Treatment Plant Upgrade**, contributing to project milestones and operational readiness.
- Assisted with **engineering design reviews** and the creation of technical documentation and drawings, ensuring adherence to project specifications and regulatory requirements.
- Participated in site activities including **inspections and surveys**, providing essential support for construction phases and quality assurance checks.
- Coordinated effectively with **subcontractors, suppliers, and internal EPS teams** to ensure seamless workflow and timely delivery of project components.
- Supported the development of **method statements, risk assessments, and compliance documentation**, upholding stringent health, safety, and quality standards.
- Maintained accurate **project records and reports**, tracking progress against schedules and quality benchmarks for the wastewater infrastructure project.

SKILLS

Engineering & Infrastructure – Wastewater Treatment, Civil Engineering, Mechanical Engineering, Electrical Engineering, Utilities, Project Delivery, Site Inspections, Construction Support

Project Management Tools – MS Project, AutoCAD, Primavera P6, Site Surveys

Software & Collaboration – Jira, Confluence, Git, Jenkins, Microsoft Office Suite

Data Analysis & Reporting – Power BI, Tableau, SQL, DAX, Power Query, Data Modelling, Reporting

Programming & Scripting – Python, Java, Spring Boot, REST APIs, SQL

Cloud & DevOps – AWS, Docker, Linux

Compliance & Quality – Health & Safety, Environmental Standards, Quality Standards, Regulatory Compliance, GDPR Awareness

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Drogheda Wastewater Treatment Plant Upgrade - Project Support System

- Developed a **centralized project support system** using **Python** and **Flask**, integrating with **Jira** and **Confluence** to track design review progress and document compliance.
- Implemented automated reporting features using **Power BI**, pulling data from integrated systems to provide real-time insights into project schedules and quality metrics, achieving a **20% reduction** in manual reporting

time.

- Designed and maintained database schemas in **PostgreSQL** for storing project documentation, inspection reports, and subcontractor coordination data, ensuring data integrity for **regulatory audits**.

Financial Services Transaction Monitoring Dashboard

- Engineered a **payments operations dashboard** using **Java Spring Boot** and **Python** for data ingestion and automation, supporting a financial services client.
- Implemented real-time **transaction monitoring** and operational alerting for failed payment messages, maintaining a **99.9% uptime** for critical financial workflows.
- Collaborated with business analysts to refine **reconciliation workflows** and audit trail generation, ensuring compliance with strict operational SLAs and GDPR awareness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
