PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Maintained and improved **mechanical, electrical, and electronic systems** through planned preventative maintenance, achieving a **15% reduction** in unscheduled downtime.
- Responded to and resolved **breakdown requests** within an average of **2 hours**, ensuring minimal disruption to facility operations and adherence to strict SLAs.
- Supported and executed **installation, upgrades, and adaptation works** on facility infrastructure, completing projects **10% ahead of schedule**.
- Ensured strict adherence to **health & safety and infection control procedures** across all maintenance activities, contributing to a **zero-incident rate** for the period.
- Operated and maintained **workshop machinery** including lathes and mills, performing precision tasks to support repair and fabrication needs.
- Managed accurate record-keeping for all maintenance activities and participated in **audits**, ensuring compliance with company and regulatory standards.

SKILLS

Maintenance & Operations – Planned Preventative Maintenance (PPM), Breakdown Response, Installation & Upgrades, Health & Safety Compliance, Infection Control, Pool Plant Operations, Record Keeping, Audits

Machinery & Systems – Mechanical Maintenance, Electrical Maintenance, Electronic Systems Maintenance, Workshop Machinery (Lathes, Mills, Drills), Compressor Maintenance, AHU Maintenance, Air Conditioning Maintenance, Marine Maintenance

Tools & Equipment – Hand Tools, Power Tools, Access Equipment Operation

Software & IT – PC Skills, Data Entry, Reporting Software

Soft Skills – Adaptability, Decision Making, Teamwork, Communication (Verbal & Written)

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Integrated Facility Management & Predictive Maintenance System

- Developed a comprehensive **facility management system** to track and manage Planned Preventative Maintenance (PPM) for mechanical, electrical, and electronic systems across multiple sites, reducing critical equipment failures by **20%**.
- Implemented a **predictive maintenance module** using sensor data analysis (simulated from historical logs) to forecast potential breakdowns, decreasing emergency repair calls by **30%** and extending equipment lifespan.

- Integrated modules for managing **installation, upgrades, and adaptation works**, providing real-time progress tracking and resource allocation, which improved project completion efficiency by **15%**.

Automated Transaction Monitoring & Reconciliation Dashboard

- Engineered a **payments operations dashboard** that monitored thousands of daily financial transactions, identifying and alerting on exceptions in near real-time.
- Developed **Python scripts** for automated data validation and reconciliation of transaction flows, reducing manual processing time by **40%** and improving data accuracy.
- Supported the production environment with strict audit trail requirements, ensuring **GDPR-aware operational alerting** for failed or stuck payment messages.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
