

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and operated high-scale applications, focusing on operational excellence and scalability, by contributing to backend services and integrating with internal systems, improving system reliability by **15%**.
- Diagnosed and resolved complex performance issues across enterprise applications, achieving a **20%** reduction in critical incident response times through in-depth log analysis and debugging.
- Participated in agile ceremonies and estimation processes, contributing to Sprint deliverables and solving medium-complexity problems by analyzing sources of issues and their impact on service operations.
- Performed general application development activities, including unit testing and code deployment to development environments, documenting processes to facilitate minimal effort for other developers to integrate.
- Applied modern software development practices, including CI/CD pipelines using **Jenkins** and source code management with **Git**, to support the deployment and operation of scalable applications.
- Managed change-control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for enterprise business systems, ensuring seamless post-go-live support across interconnected platforms.

SKILLS

Languages – Java, Python, JavaScript, SQL

Backend Technologies – Spring Boot, Java/J2EE, Microservices, SOA, REST APIs

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

CI/CD & DevOps Tools – Jenkins, Git, Jira, Confluence

Databases – PostgreSQL, MySQL, Oracle, SQL Server

Frontend Technologies – HTML, CSS, Angular, Bootstrap

Testing & Monitoring – Unit Testing, Performance Testing, JUnit, Selenium, Splunk, Dynatrace

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin** **02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India** **01/2021**

PROJECTS

Equifax Global Data Fabric Integration Platform

- Engineered a scalable backend service using **Java Spring Boot** and **PostgreSQL** to integrate disparate internal systems with the Equifax Data Fabric, processing over 10,000 transactions per hour.
- Developed automated CI/CD pipelines with **Jenkins** and **Git**, enabling daily deployments and reducing manual intervention by **40%**, directly supporting faster iteration on new features.

- Implemented comprehensive logging and monitoring using **Splunk** and **CloudWatch**, identifying and resolving performance bottlenecks that decreased average API response times by **25%**.

Financial Services Transaction Monitoring Dashboard

- Developed and maintained a production support dashboard for a financial-services client, monitoring transaction flows and providing real-time alerts for failed payment messages, ensuring **99.9%** uptime.
- Automated data validation and reconciliation workflows using **Python** scripts, reducing manual reconciliation effort by **30%** and improving data accuracy across core financial operations.
- Collaborated with business analysts and operations teams to gather requirements for new monitoring features and support post-implementation triage, ensuring alignment with regulatory and GDPR awareness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
