PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided first and second-level ICT support for over 1,000 staff across multiple sites, resolving an average of **15 tickets daily** through phone, email, and remote desktop.
- Configured and installed **Windows 11 devices**, peripherals, and software, including new user onboarding and device handover sessions, reducing setup time by **20%**.
- Managed user incidents and service requests logged via **Microsoft 365**, performing root cause analysis and escalating complex issues to senior staff to maintain **99.5% SLA adherence**.
- Supported and maintained browser-based business systems, conducting user briefings and offering deskside assistance to ensure seamless adoption and operational efficiency.
- Automated routine IT support tasks using **Python scripting**, developing tools that reduced manual intervention for common hardware and software issues by **30%**.
- Maintained comprehensive documentation for IT support procedures and user guides on **Confluence**, contributing to a **15% faster onboarding** time for new support team members.

SKILLS

Operating Systems – Windows 11, Linux

Productivity Suites – Microsoft 365, Office Suite, Confluence, Jira

Hardware & Device Support – Desktop PCs, Laptops, Mobile Devices (iOS, Android), Peripherals

Networking & Protocols – TCP/IP, DNS, DHCP

Scripting & Automation – Python, Shell Scripting

IT Support Methodologies – ITIL Framework Concepts, Incident Management, Service Request Fulfillment, Change Management

Databases & Data Handling – SQL (PostgreSQL, MySQL, Oracle)

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise IT Operations Dashboard (HCL Technologies)

- Developed and maintained a centralized **IT Operations Dashboard** using **Power BI**, integrating data from **Splunk** and **Dynatrace** to provide real-time visibility into system health and performance metrics.
- Automated incident reporting and SLA tracking through custom **Python scripts** and **SQL queries** across PostgreSQL and Oracle databases, reducing manual reporting effort by **40 hours per month**.

- Collaborated with cross-functional teams to define key performance indicators (KPIs) and present actionable insights to stakeholders, improving system reliability and reducing critical incidents by **18%**.

User Support Automation Platform

- Engineered a Python-based application to automate common IT helpdesk requests, including software installation and user account provisioning, processing over **500 requests** weekly.
- Integrated with Active Directory (simulated via mock API) and ticketing systems to streamline workflows and reduce resolution times for standard user support tickets by an average of **25%**.
- Implemented a simple web interface using **Flask** for IT staff to manage and trigger automated tasks, enhancing efficiency and consistency in support operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
