PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Managed critical **Microsoft-based infrastructure solutions** for a 24x7 operational environment, ensuring adherence to SLA requirements and mitigating security vulnerabilities through timely **vulnerability remediation** and patching.
- Designed and implemented highly available **Microsoft infrastructure solutions**, including robust **disaster recovery solutions** for mission-critical systems, achieving 99.95% uptime.
- Automated **security patching processes** and system administration tasks using **Python scripting** and **REST APIs**, reducing manual intervention by **40%** and enhancing operational efficiency.
- Developed comprehensive **technical documentation** for audits and compliance, detailing system configurations, operational procedures, and fail-over strategies, which contributed to successful **GDPR compliance** audits.
- Provided escalation support for complex technical issues related to **Windows Server** and **Active Directory** environments, mentoring junior staff and improving overall team problem-solving capabilities by **15%**.
- Enhanced organizational security posture by integrating new security initiatives with existing IT operations, ensuring alignment with architectural standards and performing regular **system administration** tasks.

SKILLS

Microsoft Technologies – Windows Server (2019/2022/2025), Active Directory, Group Policy, Windows 11
Infrastructure & Security – Cyber Security, Vulnerability Remediation, Security Patching, High Availability, Disaster Recovery, ITIL, Compliance Audits
Automation & Scripting – Python, Ansible, REST APIs
Virtualization & Storage – VMware, NetBackup
Operating Systems – Linux (RedHat/OEL), Shell Scripting
Cloud & Monitoring – AWS (EC2/S3/Lambda/CloudWatch), Splunk, Dynatrace
Data & Databases – SQL (PostgreSQL, MySQL, Oracle)

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Secure Enterprise Infrastructure Automation Platform (HCL Technologies)

- Architected and deployed a new **Microsoft-based infrastructure** for a financial services client, focusing on security and high availability, supporting over **10,000 users**.

- Automated **vulnerability remediation** and security patching across 500+ Windows servers using **Python** and **Ansible**, reducing critical patch deployment time by **60%**.
- Developed detailed **technical documentation** and runbooks for system administration and disaster recovery, ensuring compliance with stringent regulatory requirements and passing **3 consecutive audits**.

Payments Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** with new transaction monitoring features, improving the detection rate of failed payment messages by **25%**.
- Implemented automated alerting mechanisms using **Python** and **Splunk**, reducing incident response time for critical payment issues by **30%**.
- Collaborated with business analysts to refine reconciliation workflows, ensuring data integrity and audit trail completeness for financial transactions.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
