

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Analyzed network data from GIS, SAP, and RMDS, and weather feeds to support power flow studies, reducing simulation setup time by **15%**.
- Executed power flow studies using existing capabilities to validate system output against recorded measurements, achieving **98%** accuracy in network verifier simulations.
- Resolved **25+** critical issues identified during load flow analysis by collaborating with data analytics teams, enhancing network reliability and performance metrics.
- Developed Python scripts to automate data extraction and transformation from Oracle DB for KPI reporting, decreasing manual reporting effort by **40%**.
- Contributed to process improvement initiatives by identifying and documenting **10+** areas for enhancement in network data verification workflows.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for enterprise business systems, ensuring **100%** adherence to change management protocols.

SKILLS

Core Technologies – Python, Java, Spring Boot, SQL, Oracle DB, PostgreSQL, Linux, Git, Jenkins

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, R, pandas, NumPy

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

Operational Systems – Operational Technology (OT), Network Operations, GIS, SAP, RMDS, ADMS

Methodologies & Practices – Agile/Scrum, CI/CD, Change Management, Incident Response, UAT, Process Improvement, Data Warehousing

Domain Knowledge – Power Systems Analysis, Load Flow Studies, Network Data Verification, Transaction Monitoring, Financial Services Operations Dashboard Support

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Network Reliability Enhancement Platform (HCL Technologies)

- Developed a Python-based platform for automated network data ingestion and validation from diverse sources including GIS and SAP, processing over **1TB** of data daily.
- Implemented power flow simulation modules to analyze network characteristics and identify potential failure points, improving predictive accuracy by **22%**.

- Created interactive Power BI dashboards to visualize load flow results, network parameters, and KPI trends for operational stakeholders, facilitating quicker decision-making for network upgrades.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Engineered Java Spring Boot microservices to process and monitor high-volume financial transaction messages, ensuring **99.95%** uptime for critical payment operations.
- Designed and implemented alerting mechanisms within a financial-services dashboard to flag failed or stalled transactions, reducing average issue resolution time by **30%**.
- Collaborated with business analysts to define reconciliation workflows and audit trail requirements, ensuring adherence to regulatory and GDPR awareness in production environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
