

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **Linux server infrastructure** and **web server (Nginx)** operations, ensuring 99.95% uptime for critical ad-tech services by implementing proactive monitoring and rapid incident response protocols.
- Administered **MariaDB and ClickHouse database systems**, optimizing query performance and implementing robust backup strategies that reduced data recovery time by **40%**.
- Developed **Python scripts** for automating routine system administration tasks and data processing pipelines, decreasing manual intervention by **30%** and improving operational efficiency.
- Contributed to **Agile (SCRUM) methodology** adoption within the engineering team, enhancing team velocity by **15%** through regular participation in sprint planning, reviews, and retrospectives tracked via **JIRA**.
- Implemented and maintained **Nginx web server configurations** and **Redis caching layers** to enhance application responsiveness and handle peak traffic loads, achieving a **20% reduction** in average page load times.
- Collaborated with application developers to ensure maximum performance and availability of the ad-serving platform, integrating infrastructure support with development cycles and adhering to industry best practices for reliability.

SKILLS

Infrastructure Management – Linux (RedHat), Server Hardware, Software Installation, Maintenance, Network Infrastructure, Cloud Platforms (AWS, Google Cloud)

Database Administration – MariaDB, ClickHouse, SQL

Web Servers & Caching – Nginx, Redis, Memcached

Scripting & Automation – Python, Bash, PHP

Methodologies & Tools – Agile, SCRUM, JIRA, Confluence, Git, GitHub

Networking – DNS Configuration, VRRP, Remote Server Installation (PXE, Kickstart)

Observability – Monitoring tools (Nagios), Log Analysis

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Ad-Serving Infrastructure Reliability Platform (HCL Technologies)

- Engineered a high-availability ad-serving platform infrastructure, integrating **Linux servers, Nginx,** and **MariaDB** to support **100M daily ad impressions** with 99.99% uptime.

- Automated deployment and configuration management for a fleet of **500+ servers** using **Python** and basic notions of configuration management tools, reducing deployment time by **50%**.
- Implemented comprehensive monitoring solutions using **Nagios** and custom **Python** scripts to proactively identify and resolve infrastructure bottlenecks, decreasing critical incidents by **25%**.

Real-Time Transaction Monitoring Dashboard (HCL Technologies)

- Developed and maintained a **Java Spring Boot**-based payments operations dashboard for a financial-services client, enabling real-time transaction-flow monitoring.
- Configured operational alerting for failed or stuck payment messages using **Splunk**, reducing average detection time for critical issues by **30%**.
- Supported reconciliation workflows and provided production support, ensuring adherence to strict SLAs and regulatory awareness within the operational environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
