01/2021

PROJECTS

Executive Edge Office Operations & IT Support Dashboard (HCL Technologies)

- Developed a comprehensive **operational dashboard** to track key IT support and facilities metrics, including ticket resolution times, meeting room availability, and equipment stock levels, achieving a **35% reduction in reported issues**.

- Automated the logging and initial triage of incoming IT support requests using **Python scripting**, improving response times by **25%** and ensuring timely escalation to senior support teams.
- Implemented a streamlined process for **device and equipment inventory management**, integrating with existing systems to provide real-time visibility and reduce manual data entry errors by **40%**.

HCL Financial Services Transaction Monitoring (HCL Technologies)

- Supported a **payments operations dashboard** by monitoring transaction flows and implementing operational alerting for failed payment messages within a high-availability production environment.
- Executed **SQL queries** across PostgreSQL and Oracle databases for data validation and troubleshooting of reconciliation workflows, ensuring data integrity for financial transactions.
- Contributed to maintaining **audit trails and regulatory awareness** within the production environment through diligent incident response and change management processes.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
