PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and executed comprehensive **test plans** for custom development functional areas, ensuring requirements traceability and alignment with acceptance criteria, which reduced critical defect leakage by **18%**.
- Analyzed complex requirements and reviewed acceptance criteria to ensure testability and fitness for purpose, leading to the creation of **well-defined test scripts** that improved test coverage by **22%**.
- Executed functional, regression, and integration test scripts, identifying and documenting defects with detailed steps for reproduction, contributing to a **15% improvement** in overall product quality.
- Interrogated underlying **PostgreSQL databases** to extract test data and validate results by executing complex SQL statements, ensuring data integrity and accuracy for critical payment workflows.
- Participated in defect triage discussions, providing objective analysis of defect severity and impact, which streamlined the defect resolution process and reduced average fix time by **12%**.
- Contributed to management reporting by providing key test metrics on planning, defects, and execution progress, ensuring transparency and facilitating informed decision-making for project milestones.

SKILLS

Testing Methodologies – Functional Testing, Regression Testing, Integration Testing, Test Planning, Test Scripting, Defect Triage.

Backend & API Testing – API Automation, Backend Systems Testing, Database Interrogation, SQL Statement Execution.

Fintech & Payments Domain – Payment Terminal Configuration, Device Parameter Testing, Versioned Configurations, Backend Processing Systems.

Automation & CI/CD – Cucumber, REST Assured, Jenkins, GitLab CI/CD, Git.

Cloud & Containerization – Microservices Architectures, Cloud-Native Deployments, Container Orchestration.

Agile Tools – Jira, Confluence, Gerrit.

Programming & Scripting – Java, TypeScript, SQL, Python.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Fintech Payments Terminal Configuration & Validation Platform

- Designed and implemented an automated testing framework using **Java** and **REST Assured** to validate terminal configurations and device parameters across a fleet of **PAX Android POS terminals**, achieving **95%**

test automation coverage.

- Developed complex **SQL queries** against a PostgreSQL database to simulate and verify transaction processing workflows and versioned configuration updates, reducing manual data validation efforts by **40%**.
- Integrated automated test execution into **Jenkins CI/CD pipelines**, enabling daily regression testing and providing rapid feedback loops to development teams, which decreased critical bug introduction by **25%**.

HCL Payments Operations Dashboard Enhancements

- Enhanced a financial-services operations dashboard by developing new **Java Spring Boot** microservices to monitor transaction flows and provide real-time alerting for failed payment messages, improving system uptime to **99.95%**.
- Automated data reconciliation workflows using **Python scripts**, processing over **1 million** transaction records daily and reducing manual reconciliation time by **30%**.
- Managed change-control processes for production environment updates, including UAT coordination and post-implementation support for critical financial systems, ensuring adherence to strict audit trail and GDPR requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
