PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **scalable, high-performance trading systems** on **Azure**, contributing to a **15% increase** in transaction processing throughput.
- Implemented **event-driven architecture** patterns to enhance system reliability and efficiency, achieving **99.95% uptime** for critical trading operations.
- Refactored complex codebase using **SOLID and DRY principles**, improving maintainability and reducing bug resolution time by **20%**.
- Authored **efficient, modular, and testable code** in **C#**, adhering to TDD/BDD methodologies and passing **95%** of all unit tests.
- Collaborated with **Product, Quant, and Engineering teams** to translate business needs into technical solutions, ensuring timely delivery of stable applications aligned with product vision.
- Enhanced software quality by focusing on **testability, operational metrics, and comprehensive documentation**, directly supporting critical operations and on-call rotation.

SKILLS

Programming Languages – C#, Python, Java, SQL, R

Cloud Platforms – Azure, AWS (EC2, S3, Lambda, CloudWatch)

Frameworks & Libraries – Spring Boot, .NET, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

DevOps & Tools – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Methodologies – Agile, Scrum, SOLID, DRY, TDD, BDD, Domain Driven Design (DDD)

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time Sports Betting Trading Engine (Fanatics Betting & Gaming)

- Designed and built a **high-performance trading engine** in **C#** on **Azure**, processing over 1 million bet placements per hour with sub-50ms latency.
- Implemented **event-driven architecture** using Kafka for message queuing and state management, ensuring data consistency across distributed components.
- Integrated with **PostgreSQL** for robust data persistence and **Splunk** for real-time operational monitoring and alerting, achieving **99.99%** system availability.

- Developed comprehensive unit and integration tests adhering to **TDD** principles, achieving **98% code coverage** and significantly reducing post-deployment defects.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Developed features for a **payments operations dashboard** using **Java Spring Boot** and **Python**, focusing on transaction monitoring and operational alerting for failed payment messages.
- Implemented **SQL queries** across **PostgreSQL** and **Oracle** for data validation and reporting, supporting reconciliation workflows and audit trails within a **GDPR-aware** production environment.
- Managed change-control processes and supported UAT for system configuration updates, ensuring smooth post-go-live operations for interconnected enterprise business systems.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
