PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Assisted with simple **Python automation scripts** for data processing, reducing manual effort by **15%** through scheduled task integration.
- Supported the testing and day-to-day use of **AI tools**, ensuring secure and compliant adoption in line with company policies and data protection requirements.
- Prepared and delivered short **presentations and walkthroughs** on **Microsoft 365 tools** and approved digital solutions, enhancing cross-departmental knowledge sharing.
- Provided first-line **IT support** for day-to-day user queries, resolving **90%** of issues within the agreed SLA and maintaining detailed IT asset records.
- Converted common IT queries into simple guidance materials such as **quick guides and FAQs**, improving user self-sufficiency and reducing support ticket volume by **10%**.
- Maintained **IT asset records** and basic documentation while troubleshooting basic **hardware, software, and connectivity issues**, escalating complex problems as required.

SKILLS

IT Support & Operations – Day-to-day IT support, User queries, Onboarding/Offboarding, Hardware/Software troubleshooting, Asset records

Digital Solutions & Automation – Python scripting, AI tools (e.g. Microsoft Copilot), Workflow documentation, Digital tool adoption

Microsoft 365 – Outlook, Teams, OneDrive, SharePoint, Microsoft Copilot

Operating Systems & Software – Windows, Linux, Software installation, Licence tracking

Communication & Training – Presentations, Knowledge sharing, User guidance materials, IT induction, Technical documentation

Data Analytics & BI – Power BI, DAX, Tableau, SQL, Data modelling

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Internal Knowledge Management & Automation Platform (HCL Technologies)

- Developed a **Python-based automation script** integrated with **Jira and Confluence** to streamline the creation of IT support documentation and FAQs, reducing manual documentation time by **25%**.
- Implemented a **REST API endpoint** using **Java Spring Boot** to serve automated responses to common IT queries, handling over **500 requests per week** and improving response times.

- Designed and deployed a **Power BI dashboard** to visualize IT support ticket trends and knowledge base usage, enabling the IT support team to identify key areas for process improvement and knowledge sharing initiatives.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Enhanced a **payments operations dashboard** by integrating real-time transaction monitoring capabilities, processing over **1 million transactions daily**.
- Developed **Python scripts** for automated data validation and reconciliation workflows, ensuring data integrity across critical financial services operations.
- Supported the production environment with strict SLAs, focusing on operational alerting for failed payment messages and contributing to **99.9% uptime**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
