PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented multi-agent workflows using **Python** and **LangGraph**, orchestrating specialist agents for complex task decomposition and execution, demonstrably reducing manual intervention by **30%**.
- Developed and consumed **REST APIs** using **Java Spring Boot** and **Node.js**, integrating disparate systems and enabling seamless data exchange for enterprise applications, achieving **99.9% uptime**.
- Authored **Python** scripts to automate data extraction, transformation, and loading processes from diverse sources into data warehouses, accelerating report generation timelines by **40%**.
- Championed **TDD** principles and maintained rigorous **code reviews** within a **CI/CD** framework using **Jenkins** and **Git**, improving code quality and reducing production defects by **22%**.
- Managed production incidents for enterprise applications, performing root cause analysis using **Splunk** and **Dynatrace**, and implementing corrective actions to restore service within strict **SLA** targets.
- Engineered interactive **Power BI** dashboards and complex **DAX** measures to visualize key performance indicators for business stakeholders, enhancing data-driven decision-making capabilities and leading to a **15%** improvement in operational efficiency.

SKILLS

AI/ML Tooling – LangGraph, CrewAI, AutoGen, Context Engineering, System Prompts, Agent Customization, Agent Skills, MCP, LLM Reasoning, Prompt Engineering Evaluation, Red-Teaming Prompts

Programming Languages – Python, Node.js, Go, Java, R

Backend Development – Spring Boot, REST APIs, Microservices, Flask, FastAPI

Databases & Data Warehousing – PostgreSQL, MySQL, Oracle, SQL, Data Modelling, Power Query

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, CI/CD

Observability & Monitoring – Splunk, Dynatrace

Business Intelligence – Power BI, Tableau, DAX

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

AI-Powered Developer Productivity Platform (HCL Technologies)

- Architected and developed a multi-agent system using **Python** and **LangGraph** to automate code generation, test case creation, and documentation drafting, aiming to reduce developer onboarding time by **50%**.
- Integrated LLM reasoning capabilities and implemented context engineering techniques, including system prompts and agent customization, to ensure relevant and accurate AI-generated outputs for complex coding

tasks.

- Established robust CI/CD pipelines with **Jenkins** and **Git** for the AI platform, enabling rapid prototyping, iterative development, and continuous evaluation of AI model performance against defined metrics.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Supported a payments operations dashboard, enhancing transaction monitoring and operational alerting for failed payment messages by implementing real-time data ingestion and processing.
- Contributed to production environments with strict SLAs and audit trails, ensuring regulatory awareness and data integrity for financial services workflows.
- Collaborated with business analysts to gather requirements and provided post-implementation support for critical reconciliation workflows, improving overall system stability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
