PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Translated complex business needs into actionable user stories with clear acceptance criteria, ensuring development alignment and reducing sprint scope creep by **15%** through structured refinement sessions.
- Partnered with business stakeholders to gather and analyse functional requirements, producing detailed business requirement documents and process flows that clarified objectives for development teams.
- Managed product backlogs using **JIRA** and **Confluence**, planning and prioritising features into sprints to align with quarterly objectives and strategic program goals.
- Defined story acceptance tests in collaboration with the team, applying **Acceptance Test-Driven Development (ATDD)** principles to validate functionality and ensure delivery met defined requirements.
- Assisted Product Managers with quarterly planning and backlog grooming, identifying and managing risks and dependencies associated with planned work to ensure timely delivery.
- Supported end-to-end test activities, validating functionality against requirements and ensuring successful passage of both automated and manual testing cycles.

SKILLS

Systems Analysis – Requirements Gathering, User Stories, Backlog Management, Process Flows, Use Cases, Acceptance Criteria, ATDD

Financial Services Tools – JIRA, Confluence, SQL Developer, Insomnia, Kafka Offset Explorer, Datadog

Technical Skills – SQL, Java, Spring Boot, Python, REST APIs, AWS, Linux

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Methodologies – Agile, Scrum, Change Management, Incident Response

Domain Knowledge – Financial Services Industry, Investment Management, Wealth Management (Desirable)

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Fidelity Strategic Advisors Technology Platform Enhancement

- Collaborated with Product Managers and business stakeholders to gather and analyse complex financial services requirements, translating them into detailed user stories and acceptance criteria for a strategic program.
- Developed and maintained detailed process flows and business requirement documents, ensuring clear communication of objectives and underlying business needs to cross-functional development teams.

- Managed and prioritised product backlogs in **JIRA**, coordinating with global teams to identify risks and dependencies, and ensuring readiness for sprint planning and execution.

HCL Payments Operations Dashboard Enhancements

- Supported production operations for a financial services client's payments dashboard, monitoring transaction flows and implementing alerting for failed payment messages, sustaining **99.9%** uptime.
- Automated data validation and reconciliation workflows using **Python** and **SQL** across PostgreSQL and Oracle databases, reducing manual processing time by **22%**.
- Contributed to feature development on the Java Spring Boot application, building REST APIs for enhanced transaction monitoring and operational reporting.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
