PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed new user-facing features for an enterprise Laboratory Information System, enhancing functionality and user experience, contributing to a **15% increase** in user adoption within the first quarter post-deployment.
- Managed data transfer systems between laboratory instruments and the central LIMS, accommodating **ever-increasing volumes of data throughput** and ensuring data integrity for automated quality control verifications.
- Designed and implemented robust APIs for integration and data import/export functionalities, enabling seamless data exchange between disparate systems and supporting **cross-functional team data requirements**.
- Automated data quarantine systems and quality control verifications using Python scripting, reducing manual intervention by **40%** and improving the accuracy of bias, precision, and uncertainty of measurement controls.
- Maintained and optimized backend web applications and databases for the LIMS platform, ensuring ease of use, speed, and scalability to support evolving business processes and **cloud computing infrastructure**.
- Documented release deployments and change management procedures, adhering to script procedures and creating project plans that accurately described proposed enhancements for **simplicity and flexibility**.

SKILLS

Development – PHP, Back-end Web Applications, APIs, Databases, Reusable Code, Libraries, Cloud Computing Infrastructure, Web Portal Development, Quality Management System Development.

Data Management – Data Computations, Data Transfer, Data Throughput Management, Data Quarantine Systems, Integration, Data Import/Export, MS-Office Suite, Method Validations, Statistical Analysis, Bias Controls, Precision Controls, Uncertainty of Measurement Controls.

Automation & Scripting – Python Scripting, ETL, Scheduled Reporting, Shell Scripting, Cron Jobs.

Databases & SQL – SQL (PostgreSQL, MySQL, Oracle), Database Creation & Modification, Data Warehousing.

Development Methodologies – Agile/Scrum, Continuous Improvement, Feature Development, CI/CD, Jenkins, Git, Jira, Confluence, Change Management, Release Deployment.

Monitoring & Support – Production Support, Incident Response, Troubleshooting (On-Premise & Cloud), SLA Management, Splunk, Dynatrace, CloudWatch.

Programming Languages – Java, Spring Boot, Python, PHP, R, SQL.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Fitz Scientific LIMS Enhancement Platform (HCL Technologies)

- Engineered a Python-based data pipeline to automate the ingestion and processing of instrument readings, managing **over 10TB of daily data** and ensuring compliance with automated quality control verifications.
- Developed a RESTful API layer using Java Spring Boot to facilitate seamless data import/export between the LIMS and external analytical platforms, reducing data reconciliation time by **25%**.
- Implemented a cloud-based data quarantine system on AWS, providing secure storage and automated checks for data integrity, supporting **multi-site-based applications** and enhancing overall system reliability.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Enhanced a payments operations dashboard by developing real-time transaction monitoring capabilities, enabling operations teams to track payment message flows and identify failures with **99.95% accuracy**.
- Built automated alerting mechanisms within the dashboard using Python and SQL queries against PostgreSQL, decreasing the mean time to detect (MTTD) for critical payment issues by **30%**.
- Collaborated with business analysts to refine reconciliation workflows and audit trail generation, ensuring adherence to regulatory awareness and GDPR compliance for sensitive financial data.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
