PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **microservices** and **serverless solutions** on **AWS**, enhancing system scalability and reducing operational costs by **18%** through efficient resource allocation.
- Led backend development for a financial-services operations dashboard, improving **transaction monitoring** throughput by **30%** by optimizing **Java Spring Boot** services and **PostgreSQL** queries.
- Integrated security best practices, including implementing **RESTful API security** measures and ensuring **GDPR** compliance for production systems, reducing critical vulnerabilities by **40%**.
- Defined and upheld coding standards by building a unified **Java** codebase and implementing comprehensive **CI/CD** pipelines with **Jenkins**, decreasing deployment failures by **25%**.
- Troubleshoot production issues across a wide array of services and functional areas using **Splunk** and **Dynatrace**, achieving a **99.9%** SLA adherence for critical financial operations.
- Collaborated with business stakeholders and cross-functional teams to define requirements and deliver backend solutions, ensuring alignment with user needs and business goals, resulting in a **15%** increase in operational efficiency.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure, Google Cloud

Backend Development – Java Spring Boot, Python, Node.js, NestJS, RESTful APIs, GraphQL APIs, Microservices Architecture, Serverless

Databases – PostgreSQL, MySQL, Oracle, NoSQL DB, SQL, Data Warehousing

Containerization & Orchestration – Docker, Kubernetes

DevOps & CI/CD – Jenkins, Git, Splunk, Dynatrace, CloudWatch, Linux Shell Scripting

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, Statistical Analysis

Methodologies & Practices – Agile/Scrum, Incident Response, Change Management, Code Reviews, Testing, Mentorship

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Real-Time Event Processing and Alerting Platform (HCL Technologies)

- Engineered a high-throughput event-driven backend system using **Java Spring Boot** and **Kafka**, processing over **1 million financial transaction messages** daily to support a payments operations dashboard.

- Developed **RESTful APIs** for real-time data ingestion and status retrieval, enabling operational teams to monitor reconciliation workflows and achieve a **99.95%** message processing success rate.
- Implemented comprehensive monitoring and alerting using **Prometheus** and **Grafana**, reducing average incident detection time by **50%** and ensuring adherence to strict SLAs.

Customer Analytics and KPI Dashboard (MSc Project)

- Designed and built an interactive executive KPI dashboard using **Power BI**, consolidating data from multiple sources to provide insights into customer behaviour and product performance.
- Developed complex **DAX measures** and optimized data models within **Power BI**, reducing report load times by **40%** and enabling stakeholders to make data-informed decisions.
- Applied **ETL** processes using **Power Query** to clean, transform, and integrate disparate datasets, ensuring data accuracy and consistency for effective business intelligence.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
