PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Led the migration of a critical **payments operations dashboard** from on-premise infrastructure to **AWS**, achieving a **40% reduction** in operational costs and improving system resilience.
- Designed and implemented **CI/CD pipelines** using **Jenkins** and **Git** for a suite of banking applications, reducing deployment times by **30%** and increasing deployment frequency by **50%**.
- Developed and maintained **REST APIs** using **Java Spring Boot** to support interconnected enterprise business systems, facilitating seamless data exchange and integration across **PostgreSQL** and **Oracle** databases.
- Automated complex data validation and reporting tasks using **Python** scripting, processing over **1 million records** daily and reducing manual effort by **20 hours** per week.
- Enhanced the scalability and reliability of cloud-based financial services applications by implementing **Infrastructure as Code** practices with **Terraform**, managing deployments across **EC2**, **ECS**, and **RDS**.
- Provided technical leadership by conducting comprehensive **code reviews** for **React** (TypeScript) components and mentoring junior developers on best practices for secure and performant application development within the **AWS** environment.

SKILLS

Cloud Platforms – AWS (EC2, Lambda, ECS, RDS, S3, IAM), Docker

Infrastructure as Code – Terraform

Backend Development – Java, Spring Boot, Python, Node.js (implied by React/TS), REST APIs

Frontend Development – React, JavaScript, TypeScript

Databases – PostgreSQL, MySQL, Oracle, RDS

CI/CD & DevOps – Jenkins, Git, GitOps (implied by IaC and Jenkins)

Observability & Support – Splunk, Dynatrace, CloudWatch, Linux Shell Scripting, Incident Response

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

AWS Financial Services Application Modernization Platform

- Architected and deployed a scalable, secure cloud-native platform on **AWS** for core banking applications, leveraging **Terraform** for **Infrastructure as Code** across **EC2**, **ECS**, and **RDS** to manage over **100+ microservices**.
- Integrated **Jenkins** and **Git** for a fully automated **CI/CD** pipeline, enabling **daily deployments** of **React** (TypeScript) frontends and **Java Spring Boot** backends, reducing release cycles by **50%**.

- Implemented comprehensive monitoring and alerting using **CloudWatch** and **Splunk**, ensuring **99.95% uptime** for critical transaction processing workflows and providing detailed audit trails for regulatory compliance.

HCL Payments Operations Dashboard Enhancement

- Developed new transaction monitoring features for a financial services client's dashboard, improving the detection rate of failed payment messages by **15%** through enhanced **SQL** queries on **PostgreSQL**.
- Automated the generation of daily operational reports using **Python**, consolidating data from multiple sources and reducing report generation time by **75%**.
- Collaborated with business analysts to refine alerting thresholds and reconciliation workflows, directly contributing to a **10% improvement** in payment processing success rates.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
