PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Resolved critical P1/P2 incidents for enterprise applications by analyzing logs in **Splunk** and **Dynatrace**, achieving an average resolution time reduction of **18%**.
- Automated data validation and reporting processes using **Python** scripting, reducing manual effort by **30 hours** per week and improving data accuracy by **99.5%**.
- Developed and maintained REST APIs for internal services using **Java Spring Boot**, enabling seamless integration across multiple enterprise systems and supporting a **15%** increase in data throughput.
- Managed change-control processes for production system updates, coordinating UAT cycles and ensuring successful post-go-live support for critical ERP modules, maintaining **100%** uptime during deployments.
- Designed and implemented interactive dashboards in **Power BI**, consolidating key performance indicators from disparate data sources and providing actionable insights that informed business decisions, leading to a **10%** optimization in resource allocation.
- Investigated crash rate anomalies and potential product bug alerts by performing log analysis and reproduction attempts, escalating findings to engineering teams with detailed documentation and reducing false positive escalations by **22%**.

SKILLS

Core Development – Java, Spring Boot, Python, REST APIs, SQL, Linux, Shell Scripting.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, Data Modelling, Data Warehousing.

Operations & Support – Splunk, Dynatrace, Incident Response, Production Support, Change Management, SLA Management.

Enterprise Systems – ERP Integration Support, Business Systems Support, Transaction Monitoring, Reconciliation Workflows.

Trust & Safety – Data Privacy, Data Protection, Privacy Protection, Trust and Safety, Product Reliability.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time Product Anomaly Detection Platform (HCL Technologies)

- Developed a **Python**-based anomaly detection system to monitor product bug alerts and crash rate spikes, processing over **1 million** events daily.

- Integrated with **AWS CloudWatch** logs and **Splunk** for real-time data ingestion and analysis, reducing alert triage time by **40%**.
- Collaborated with engineering teams to provide detailed incident reports and root cause analysis, enabling faster resolution of critical product defects and improving system stability by **25%**.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Engineered a **Java Spring Boot** application to monitor transaction flows within a financial-services dashboard, identifying and alerting on failed payment messages.
- Implemented robust logging and audit trails using **PostgreSQL**, ensuring compliance with regulatory awareness requirements and supporting GDPR data protection.
- Worked cross-functionally with operations and business analysts to refine alerting thresholds and reconciliation workflows, achieving a **99.9%** uptime for critical payment processing operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
