PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Resolved over **150+ customer issues** weekly via email and chat support, ensuring adherence to defined policies and procedures for a leading enterprise client.
- Analyzed and investigated reported issues, including account support requests and potential bugs, achieving a **95% first-contact resolution rate**.
- Identified **5 key workflow inefficiencies** within the triage process, proposing and implementing automated solutions that reduced manual effort by **20%**.
- Gathered, analyzed, and utilized **relevant data** to develop and test improvements for the overall user experience on the site, leading to a **15% increase in user satisfaction**.
- Developed and maintained **Python scripts** for data extraction, transformation, and loading, supporting the development of ML models for user behavior analysis.
- Contributed to the improvement of **transaction monitoring** and reconciliation workflows by providing detailed log analysis and root cause identification for escalated issues.

SKILLS

Trust and Safety – Triage Support, Process Associate, User Community Advocate, Policy Adherence, Data Privacy, Data Protection, Privacy Protection, Trust and Safety

Development Operations – Unity C#, Unreal Engine C++, Android Development, Game Development, AR/VR Development, Console Development

Development Tools – Github, Command Line Tools, Log Analysis, Test Case Development

Programming Languages – Python, Java, SQL, C#, C++

Cloud & Automation – AWS, Jenkins, Docker, Shell Scripting

Databases – PostgreSQL, MySQL, Oracle

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Pandas, NumPy, R

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Genpact T&S; Developer Operations Support Platform

- Developed a comprehensive support platform using **Python** and **Flask** to manage incoming customer tickets and bug reports, processing over **10,000+ reports** per month.
- Integrated **Github** API to automatically pull relevant code repository logs and commit histories for bug investigation, reducing root cause analysis time by **30%**.

- Implemented automated log parsing and analysis using **Pandas** and **NumPy**, identifying critical errors and generating summary reports for the development team, improving debugging efficiency by **25%**.
- Designed and deployed RESTful APIs with **FastAPI** for seamless integration with external systems, supporting cross-platform game development feedback cycles.
- Utilized **PostgreSQL** for structured storage of support tickets, user feedback, and investigation findings, ensuring data integrity and quick retrieval.

HCL Financial Services Transaction Monitoring Dashboard

- Enhanced a **payments operations dashboard** by developing new features in **Java Spring Boot** to monitor transaction flows and provide real-time alerts for failed payment messages.
- Automated data validation and reconciliation checks using **Python** scripts, reducing manual processing time for operational teams by **40%**.
- Managed and queried large datasets in **PostgreSQL** and **Oracle** to support detailed transaction analysis and reporting for regulatory compliance and audit trails.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
