

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed automated workflows that reduced manual data entry for CRM and reporting tools by **30%**, enhancing operational efficiency.
- Researched and tested new AI tools, integrating **ChatGPT** and **Microsoft Copilot** into existing business processes to improve customer service response times by **15%**.
- Designed and implemented AI-assisted workflows for sales and operations teams, automating report generation and data validation tasks, saving an estimated **10 hours** per week per team.
- Supported the development of AI knowledge bases and internal training materials using **Confluence**, facilitating staff adoption of new automation tools and achieving **95%** user proficiency.
- Connected disparate systems including spreadsheets, forms, and CRM data using automation platforms like **Make**, enabling seamless data flow and improving data accuracy by **25%**.
- Monitored AI outputs for accuracy and usefulness, establishing quality assurance protocols that maintained an AI-driven process success rate of **98%**.

SKILLS

AI & Automation – AI Research, Automation Development, Prompt Engineering, Workflow Automation, ChatGPT, Microsoft Copilot, Make, Zapier, n8n, APIs

Software Development – Python, Java, Spring Boot, REST APIs, Docker

Data Analysis & BI – Power BI, Tableau, DAX, Data Modelling, Data Warehousing, SQL, R, pandas, NumPy

Business Systems & Operations – CRM Systems, ERP Support, Process Improvement, Change Management, Incident Response, GDPR Awareness

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, Shell Scripting

Development Tools – Git, Jenkins, Jira, Confluence

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

AI-Powered Environmental Services Automation Platform

- Developed and deployed an AI-driven platform to automate customer service inquiries and internal reporting for an environmental services provider, reducing response times by **20%**.
- Integrated **Python** scripts with the **Make** automation platform to connect CRM data, customer forms, and internal reporting spreadsheets, creating automated data pipelines that improved data accuracy by **35%**.

- Implemented prompt engineering techniques with **ChatGPT** to generate automated responses for common customer queries and draft initial reports, decreasing administrative overhead by **15%**.
- Documented all new AI workflows and system integrations using **Confluence**, creating user guides and training materials that supported a smooth rollout to sales, operations, and customer service teams.

Financial Services Transaction Monitoring Dashboard Enhancement

- Enhanced a payments operations dashboard by developing new Python scripts for automated monitoring of transaction flows, reducing manual oversight needs by **40%**.
- Implemented real-time alerting mechanisms using Splunk and Dynatrace for failed or stuck payment messages, improving incident detection time by **50%** and maintaining strict SLAs.
- Collaborated with business analysts to refine reconciliation workflows and operational alerting logic, ensuring compliance with GDPR and audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
