PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Created and managed **purchase orders** using **SAGE**, processing over 500 POs monthly and ensuring accurate data entry to support procurement operations.
- Compiled and produced detailed **monthly spend reports** by extracting and analyzing data from various financial systems, contributing to a **15% improvement** in budget tracking accuracy.
- Inputted **Proof of Delivery (POD) information** into **SAGE** and maintained meticulous records, reducing data entry errors by **20%** and enhancing inventory reconciliation.
- Identified and resolved critical discrepancies in procurement data, escalating issues to management to prevent potential financial losses and ensure compliance with operational procedures.
- Monitored **vendor performance** against established SLAs, reporting on underperformance trends and collaborating with vendors to implement corrective action plans, improving delivery times by an average of **10%**.
- Assisted in setting up new **vendor accounts**, ensuring all necessary documentation and compliance checks were completed accurately and efficiently, streamlining the onboarding process.

SKILLS

Procurement Administration – Purchase Order Creation, Vendor Management, Spend Reporting, Proof of Delivery (POD) Input, Vendor Account Setup, Issue Resolution, Performance Monitoring.

ERP Systems – SAGE (PO Creation, Data Entry, Report Generation).

Data Analysis & Reporting – Excel (Intermediate), Data Extraction, Data Analysis, Report Compilation, Data Manipulation, Accuracy Verification.

Business Operations Support – Administrative Task Management, Travel Arrangements, Issue Escalation, Process Improvement.

Software Proficiency – Microsoft Office Suite (Excel, Word, Outlook), Jira, Confluence.

Financial Acumen – Spend Analysis, Budget Tracking, Data Accuracy, Reconciliation Support.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Procurement Spend Analysis & Reporting Platform

- Developed a comprehensive reporting solution using **Power BI** and **Python** to automate the generation of monthly procurement spend reports, reducing manual effort by **80%**.

- Integrated data from disparate sources including **SAGE** ERP extracts and vendor invoices, performing data cleaning and transformation with **pandas** to ensure data integrity for analysis.
- Created interactive dashboards in **Power BI** visualizing spend by category, vendor, and department, enabling procurement managers to identify cost-saving opportunities and negotiate better rates, leading to an estimated **5% cost reduction**.

Financial Services Transaction Monitoring Dashboard

- Supported the production environment of a payments operations dashboard, performing incident response and root cause analysis for transaction flow issues, maintaining **99.9% uptime**.
- Developed Python scripts to automate data validation and reconciliation checks across critical payment message streams, reducing manual reconciliation time by **40%**.
- Collaborated with business analysts to implement new alerting mechanisms for failed payment messages, improving detection time by **25%** and ensuring timely resolution.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
