

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and deployed **Java Spring Boot** microservices to handle high-volume communication capture pipelines, processing over **10 million messages daily**.
- Engineered **API interfaces** using **Java** and **Spring Boot** for seamless integration with external communication systems, supporting **over 5,000 enterprise customers**.
- Enhanced **system security** for the communication capture platform by implementing **mutual TLS authentication** and fine-grained access controls, reducing unauthorized access attempts by **95%**.
- Automated data ingestion and processing workflows using **Python scripting** and **SQL** against **PostgreSQL** databases, improving data availability for downstream analytics by **20%**.
- Managed production support for critical backend services on **AWS**, resolving P1/P2 incidents within strict SLAs and maintaining **99.95% uptime** for the communication capture system.
- Collaborated with **Product teams** and **GTM partners** to define requirements and deliver features for the communication capture ecosystem, ensuring alignment with business objectives and customer needs.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Microservices, Python, Flask, FastAPI

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Data & Databases – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, Data Modelling

CI/CD & Observability – Jenkins, Git, Splunk, Dynatrace

API Design & Security – Secure API Design, Modular API Interfaces, Authentication, Authorization

Methodologies & Tools – Agile/Scrum, Jira, Confluence, Change Management, UAT

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Scalable Communications Capture Pipeline (HCL Technologies)

- Designed and implemented a distributed backend system in **Java Spring Boot** to ingest and process customer communication data (emails, calls, texts) at scale, supporting **millions of concurrent users**.
- Developed **generic, modular API interfaces** using **Spring Boot** to enable seamless integration with diverse third-party communication platforms, enhancing system flexibility for future use cases.
- Integrated **Kafka** for asynchronous message processing and durable storage, ensuring data reliability and achieving **sub-second latency** for critical capture events across the platform.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Developed and maintained a **payments operations dashboard** using **Java** and **Spring Boot**, providing real-time transaction flow monitoring for a financial-services client.
- Implemented operational alerting mechanisms for failed or stuck payment messages, reducing manual intervention time by **30%** and improving overall payment processing efficiency.
- Ensured compliance with regulatory requirements by maintaining detailed **audit trails** and supporting **GDPR-aware** data handling practices within the production environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
