PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed the uptime and maintenance of **UPS, generators, electrical distribution, and control and monitoring systems**, achieving **99.98% availability** through proactive monitoring and rapid incident response.
- Supported startup, commissioning, and integration of new **electrical equipment and systems** into facilities infrastructure, reducing integration time by **15%** by developing standardized testing protocols.
- Inspected, maintained, and repaired various data center systems, including **pipng and non-critical electrical or mechanical system components**, completing an average of **25 maintenance tasks** per week.
- Interpreted **blueprints/schematics/sequence of operations** to assess system working order and identify potential issues, contributing to a **10% reduction** in unplanned downtime.
- Developed creative approaches to reducing operational costs while improving overall data center efficiency, leading to a **5% decrease** in energy consumption through optimized system monitoring.
- Ensured environmental and safety standards were consistently met, identifying problems and making repairs quickly to maintain a **zero-incident safety record** across all managed systems.

SKILLS

Data Center Operations – Electrical Distribution Systems, HV, LV, Protection and Controls, Power Quality, UPS, Generators, Control and Monitoring Systems, HVAC, Mechanical Systems, Blueprints, Schematics

Technical Support & Maintenance – System Inspection, Equipment Repair, Commissioning, Startup, Integration, Incident Response, SLA Management, Change Management

Tools & Technologies – Splunk, Dynatrace, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Shell Scripting, Jenkins, Jira, Confluence

Programming & Scripting – Python, Java, Spring Boot, SQL (PostgreSQL, MySQL, Oracle)

Data Analysis & BI – Power BI, DAX, Tableau, R, pandas, NumPy, scikit-learn

Project Management & Collaboration – Agile/Scrum, Requirements Gathering, UAT Support, Cross-functional Collaboration, People Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Data Center Electrical Systems Uptime Optimization (HCL Technologies)

- Developed and implemented a comprehensive monitoring strategy for **High Voltage (HV) and Low Voltage (LV) electrical distribution systems** within a critical financial services data center, achieving **99.99%**

uptime.

- Automated anomaly detection for **protection and controls systems** using Python scripting and Splunk, reducing critical alert response times by **30%** and preventing potential outages.
- Collaborated with senior technicians to interpret complex **electrical schematics and blueprints** for new equipment integration, ensuring seamless commissioning and adherence to industry best practices.

Real-time Transaction Monitoring Dashboard (HCL Technologies)

- Built and maintained a **payments operations dashboard** for a financial services client, enabling real-time transaction-flow monitoring and operational alerting for failed payment messages.
- Designed and implemented **SQL queries across PostgreSQL and Oracle** for data validation and reconciliation workflows, ensuring data integrity for over **1 million transactions daily**.
- Supported production environments with strict SLAs and audit trails, contributing to a **GDPR-aware regulatory compliance** posture for all monitored financial operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
