PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Diagnosed and resolved over **150 critical data center blockers** and stakeholder concerns, achieving swift resolution and minimizing operational downtime across global Google data centers.
- Designed and iterated on **internal tools and automated frameworks** using Python and shell scripting, streamlining the issue management lifecycle and reducing manual intervention by **40%**.
- Created standardized **technical playbooks and processes** for Google Server Operations, enabling autonomous issue management and reducing escalation rates by **30%**.
- Partnered with Engineering and Server Operations stakeholders to investigate and fix fundamental root causes of negative business outcomes, improving system reliability by **20%** through root cause analysis and remediation.
- Managed project schedules for the Scaled Solutions team, driving long-term improvements in operational excellence and supporting an average of **50+ cross-functional partners** per project cycle.
- Developed and maintained **backend applications and shell scripts** for automating operational tasks, contributing to a **15% increase** in overall operational efficiency in data center capacity fulfillment.

SKILLS

Core Technologies – Java, Spring Boot, Python, SQL, Shell Scripting, REST APIs.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Kubernetes.

Data & Analytics – Power BI, Tableau, DAX, Power Query, pandas, NumPy, R, data modelling, data warehousing.

Operations & Support – Production Support, Incident Response, SLA Management, Splunk, Dynatrace, Change Management, UAT.

Development Practices – CI/CD, Jenkins, Git, Agile/Scrum, Jira, Confluence.

Enterprise Systems – ERP Support, Business Systems Integration, Oracle, PostgreSQL, MySQL.

System Design & Troubleshooting – System Design, Application Support, Technical Consulting, Root Cause Analysis.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Global Data Center Operations Excellence Platform (Google)

- Architected and deployed a Python-based platform for diagnosing and troubleshooting data center blockers, integrating with **Splunk** and **CloudWatch** to ingest operational logs and identify systemic issues, reducing

average resolution time by **25%**.

- Developed automated frameworks using **shell scripting** and **Java Spring Boot** to streamline issue management, creating standardized technical playbooks and enabling autonomous resolution for over **90%** of common operational incidents.
- Designed and implemented REST APIs for internal tool integration, facilitating cross-functional collaboration between Server Operations and Engineering teams and contributing to a **15% improvement** in overall operational efficiency.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Developed a **payments operations dashboard** using Java Spring Boot and PostgreSQL to monitor transaction flows and provide operational alerting for failed payment messages, supporting a major financial-services client.
- Implemented real-time transaction monitoring and reconciliation workflows, ensuring adherence to strict SLAs and audit trail requirements within a **GDPR-aware production environment**.
- Collaborated with business analysts to gather requirements and support user acceptance testing for new dashboard features, enhancing visibility into payment processing operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
