

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and implemented scalable software components for **Google Cloud-based platforms** within the GCE Node organization, improving system efficiency by **18%**.
- Participated in code reviews for a distributed systems team, enhancing code quality and maintainability for **Java Spring Boot microservices**, reducing bug introduction by **15%**.
- Translated product requirements into technical specifications for new feature development, collaborating with product managers to deliver enhancements that increased user engagement by **10%**.
- Troubleshoot and resolved critical production issues on enterprise applications, achieving an average resolution time reduction of **22%** through proactive monitoring with **Splunk** and **Dynatrace**.
- Contributed to architectural design discussions for distributed systems, focusing on scalability and fault tolerance within an **AWS** environment, supporting a **3x** increase in transaction throughput.
- Automated data ingestion and reporting processes using **Python scripting** and **SQL**, reducing manual effort by **40 hours** per month and improving data accuracy.

SKILLS

Programming Languages – Java, Python, C++, Go

Cloud Platforms – Google Cloud Platform, AWS (EC2, S3, Lambda, CloudWatch)

Backend Development – Spring Boot, REST APIs, Microservices, FastAPI, Flask

Databases – PostgreSQL, MySQL, Oracle, SQL

DevOps & CI/CD – Docker, Jenkins, Git, Linux Shell Scripting

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy

System Design & Algorithms – Distributed Computing, Large-Scale Systems, Data Structures

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Fleet Management & Orchestration Platform (Google Cloud)

- Engineered a distributed backend service for **fleet management** using **Java Spring Boot** and **PostgreSQL**, managing over **10,000 compute instances**.
- Implemented a real-time event-driven architecture with Kafka integration to handle device status updates and orchestration commands, achieving sub-second latency for **99.95%** of messages.

- Developed robust APIs for instance provisioning, scaling, and decommissioning, integrating with **Google Cloud Platform** services and reducing manual operations overhead by **30%**.
- Designed and implemented comprehensive monitoring and alerting using **Prometheus** and **Grafana**, ensuring high availability and rapid incident response for the entire compute fleet.
- Authored detailed technical documentation and participated in architectural reviews, contributing to the system's scalability and long-term maintainability.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Developed and maintained a **payments operations dashboard** using **Java Spring Boot** and **Python**, providing real-time visibility into transaction flows for a major financial client.
- Implemented alerting mechanisms for failed or delayed payment messages, reducing critical incident response times by **25%** and ensuring adherence to strict SLAs.
- Integrated with multiple data sources via **SQL** (PostgreSQL, Oracle) to support transaction reconciliation workflows, improving data accuracy and audit trail completeness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
