

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **real-time software systems** for network traffic load balancing, reducing latency by **15%** through optimized routing algorithms.
- Authored **Python scripts** for data pipeline automation, enhancing ETL process efficiency by **20%** and ensuring data integrity for large-scale network telemetry.
- Enhanced **Java Spring Boot** microservices by developing new REST APIs for traffic monitoring, increasing system query performance by **25%**.
- Managed **production support** for enterprise applications, resolving P1/P2 incidents within **99.9% SLA compliance** by analyzing logs in Splunk and Dynatrace.
- Participated in **code reviews** for peers and stakeholders, ensuring adherence to best practices and improving code quality and testability across the team.
- Developed and maintained **technical documentation** and training materials for network engineering tools, adapting content based on user feedback and product updates.

SKILLS

Programming Languages – Java, Python, C++, SQL

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases – PostgreSQL, MySQL, Oracle

Development Tools – Git, Jenkins, Jira, Confluence

Observability & Monitoring – Splunk, Dynatrace

Data Analysis & BI – Power BI, Tableau, DAX, R

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Global Network Traffic Optimization Platform (HCL Technologies)

- Developed a **distributed system** for real-time analysis and optimization of global network traffic flows, processing over **10TB of telemetry data daily**.
- Implemented **performance optimization** techniques and **data structures and algorithms** in **Java** and **Python** to achieve a **30% improvement** in routing efficiency and load balancing.

- Designed and integrated **REST APIs** for seamless communication between traffic management modules, enabling dynamic rerouting and ensuring **99.99% network availability**.

Enterprise Business Systems Integration Framework (HCL Technologies)

- Engineered a **framework for cross-system integration** using **Java Spring Boot** and **SQL**, connecting ERP modules with operational platforms.
- Managed **change-control processes** for system configuration updates and coordinated User Acceptance Testing (UAT) for interconnected systems, reducing deployment issues by **18%**.
- Provided **production support** and post-go-live triage for integrated systems, resolving critical issues within defined SLAs and improving overall system stability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
