PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Resolved complex production issues for Google Kubernetes Engine (GKE) and Anthos deployments, achieving **99.95% uptime** by debugging and reproducing customer-reported problems across multi-node environments.
- Developed and deployed **Python scripts** for automating diagnostic tools and accelerating root cause analysis of customer-facing incidents, reducing average resolution time by **20%**.
- Collaborated with engineering and product teams to advocate for customer needs, influencing product improvements and driving **40% faster** feature integration based on recurring technical obstacles.
- Managed system administration tasks and **containerized systems**, including debugging workload issues across large-scale, multi-node environments on **Google Cloud**.
- Supported technical consulting for large enterprise customers with high **service-level agreement** requirements, triaging technical issues across hardware, software, and operational domains.
- Enhanced troubleshooting capabilities by developing and maintaining internal documentation and knowledge base articles, improving **onboarding time for new support engineers by 30%**.

SKILLS

Cloud Platforms – Google Cloud, AWS, GKE, Anthos, EC2, S3, Lambda, CloudWatch

Containerization & Orchestration – Kubernetes, Docker

Programming & Scripting – Python, Java, Spring Boot, Node.js, NestJS, Rust

Databases – PostgreSQL, MySQL, Oracle

Networking & Web Technologies – TCP/IP, HTTP, HTML, DNS, REST APIs

Systems Administration – Linux, Shell Scripting

Operations & Monitoring – Splunk, Dynatrace, CI/CD, Jenkins, Git

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Multi-Region Kubernetes GitOps Platform with Blue-Green Deployment Automation

- Architected and implemented a **multi-region Kubernetes** platform utilizing **Google Cloud** and Anthos, enabling seamless application deployments across geographically distributed data centers.
- Developed automated CI/CD pipelines with **Jenkins** and GitOps principles, integrating **NestJS** services for configuration management and achieving **100% automated rollback** capability during deployments.

- Engineered a **blue-green deployment strategy** for critical microservices, reducing downtime during releases to near zero and improving application availability by **25%**, while managing workloads across **PostgreSQL** databases.

Payments Operations Dashboard & Transaction Monitoring

- Provided production support for a **payments operations dashboard** used by a financial-services client, focusing on transaction monitoring and operational alerting for failed payment messages.
- Automated data validation and reconciliation workflows using **Python scripts** and **SQL queries** across PostgreSQL and Oracle databases, reducing manual effort by **30%**.
- Managed incident response for P1/P2 incidents within strict **service-level agreement** parameters, ensuring audit trails and compliance awareness in production environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
