PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Resolved critical escalations for **VMware workloads on Google Cloud Platform**, analyzing **packet traces** and **heap dumps** to achieve resolution rate for complex technical issues.
- Collaborated with **Site Reliability Engineering** teams to minimize customer impact during outages, contributing to a reduction in mean time to recovery for critical services.
- Served as the subject matter expert for **VMware technologies**, advising cross-functional teams on technical deployment obstacles and contributing to improvement in VMware on GCP solution stability.
- Gathered and analyzed technical troubleshooting evidence, including **operating system statistics** across network, memory, and I/O systems, to diagnose and resolve issues in virtualized environments.
- Developed **Python scripts** to automate data collection for troubleshooting, reducing manual effort by and improving the speed of issue diagnosis for enterprise cloud solutions.
- Supported customers in **enterprise cloud solutions**, managing technical escalations and providing issue resolution that improved customer satisfaction scores by .

SKILLS

Cloud Platforms – Google Cloud Platform, AWS, VMware vSphere, ESXi, vCenter, vSAN, NSX-T, HCX, vRealize Automation, vRealize Operations, Site Recovery Manager, NSX Enterprise Features, NSX Load Balancer, vCloud Suite

Programming Languages – Python, Java, C++, Shell, Go, JavaScript, PowerCLI

Virtualization & Infrastructure – Compute Infrastructure, IaaS, Virtual Machines, On-premises/Hybrid Cloud Computing, Linux, Docker, Kubernetes

Troubleshooting & Observability – Technical Support, Escalation Management, Issue Resolution, Packet Traces, Heap Dumps, Thread Dumps, Operating System Statistics, Splunk, CloudWatch, Dynatrace

Automation & Scripting – Python Scripting, ETL, Scheduled Reporting, Jenkins Pipelines, CI/CD

Databases & Data Management – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing

Cloud Solutions & Services – Cloud Identity and Security Models, Cloud Monitoring and Logging, Local and Cloud Storage

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

VMware Cloud Migration & Optimization Platform

- Engineered a comprehensive solution for migrating and optimizing **VMware workloads on Google Cloud Platform**, achieving uptime during phased cutovers for enterprise clients.
- Developed automated diagnostic tools using **Python** and **shell scripting** to analyze performance metrics across **vSphere** and **GCP** infrastructure, reducing troubleshooting time by .
- Implemented advanced monitoring with **Splunk** and **CloudWatch** to track key performance indicators for virtualized environments, ensuring adherence to strict SLAs and identifying potential bottlenecks proactively.

Financial Services Transaction Monitoring Dashboard

- Developed and maintained a **payments operations dashboard** supporting a financial-services client, enhancing transaction-flow monitoring and operational alerting for daily transactions.
- Implemented automated data validation and reconciliation workflows using **Python** and **SQL** across **PostgreSQL** and **Oracle** databases, reducing reconciliation errors by .
- Managed production support and incident response for the dashboard in a regulated environment, ensuring audit trail integrity and adherence to **GDPR** compliance requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
