PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Shipped end-to-end product features for a B2B fintech platform, integrating backend Java services and Flutter frontend applications to meet aggressive 0→1 development timelines.
- Developed and maintained **Java Spring Boot** microservices deployed on **AWS**, designing robust **REST APIs** and data models to support core platform functionality and ensure seamless integration with AI capabilities, achieving 99.95% uptime.
- Constructed high-quality **Flutter** applications for mobile (iOS & Android) and web, implementing features using established design systems and component libraries to deliver a consistent user experience across platforms.
- Automated data ingestion and transformation pipelines using **Python** and **SQL** (PostgreSQL), reducing manual data preparation time by **40%** for analytics reporting and supporting data-heavy financial domains.
- Managed production incidents and system hardening for enterprise applications using **Splunk** and **Dynatrace**, resolving P1/P2 issues within SLA targets and contributing to a security-first mindset within established compliance constraints.
- Collaborated within **CI/CD** pipelines using **Jenkins** and **Git**, facilitating rapid deployment of backend and frontend changes and improving overall code quality through rigorous code reviews and Agile/Scrum ceremonies.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Microservices, SQL, PostgreSQL, MySQL, Oracle, Python, Flask, FastAPI

Frontend Development – Flutter, Mobile (iOS & Android), Web, React, Angular

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux, Shell Scripting, CI/CD

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, R, RStudio, Pandas, NumPy, Scikit-learn

Financial Operations – Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows, Audit Trails, GDPR Awareness, Regulatory Compliance

Enterprise Systems – ERP Integration Support, Business Systems Support, Change Management, UAT Coordination

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Intelligent Credit Risk & Growth Analytics Platform (Grand)

- Architected and developed a full-stack application using **Java Spring Boot** for backend services and **Flutter** for a responsive web and mobile client, enabling businesses to assess credit risk and identify growth opportunities.
- Designed and implemented **SQL** data models within a **PostgreSQL** database to store and query complex financial data, including payment terms and unsecured loan details, while ensuring data integrity and schema evolution.
- Integrated AI capabilities to surface early signals of risk and growth, enhancing user decision-making by **20%** and contributing to a secure, cloud-native (AWS) production environment that operates within strict compliance constraints.
- Managed the end-to-end feature lifecycle, from API design and data modelling to frontend implementation and deployment via **CI/CD** pipelines, iterating based on user feedback in a fast-paced 0→1 startup environment.

Automated Transaction Monitoring and Alerting System (HCL Technologies)

- Engineered a critical component of a financial-services operations dashboard, processing high-volume transaction messages using **Java** and **Spring Boot** to monitor payment flows and identify operational exceptions.
- Developed **Python** scripts for data validation and anomaly detection within transaction datasets, reducing manual reconciliation efforts by **35%** and ensuring adherence to strict SLAs and audit trail requirements.
- Implemented real-time alerting mechanisms based on transaction status and error codes, improving incident response times by **25%** for failed or stuck payment messages within a GDPR-aware production environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
