PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and administered a **technical specification database** for aviation assets, improving data accuracy by **22%** through systematic input and review processes.
- Contributed to fleet technical records data management by updating and controlling documentation, ensuring compliance with industry standards and reducing data discrepancies by **18%**.
- Assisted with asset review system control and assessments, performing detailed analysis on component status changes to support monthly utilization reporting.
- Analyzed and updated shop visit events for aircraft components, enhancing the accuracy of maintenance records and supporting the MR Claims process with validated data.
- Developed **Python scripts** for data extraction and validation from disparate sources, automating the population of aircraft technical information and equipment specifications, saving **10 hours** of manual effort weekly.
- Collaborated with cross-functional teams to gather requirements for system enhancements, participating in UAT and post-implementation triage for enterprise business systems.

SKILLS

Data Management – Fleet technical records, Documentation control, Database administration, Component status tracking.

Aviation Systems – Aircraft specifications, Technical information, Equipment data, Shop visit events, Asset review systems.

Data Analysis & Reporting – Microsoft Excel, Microsoft Word, Microsoft Outlook, Data validation, Reporting automation.

Programming & Scripting – Python, SQL.

Enterprise Systems – ERP integration support, Change-control management, System configuration updates.

Process Improvement – UAT coordination, Post-go-live support, SLA management, Incident response.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Aviation Lease Management Data Harmonization Platform (HCL Technologies)

- Designed and implemented a data ingestion pipeline using **Python** and **SQL** to consolidate technical specifications and maintenance records from multiple legacy systems, achieving a unified dataset for **1,400+ aircraft leases**.

- Developed automated data validation routines that identified and corrected over **5,000 discrepancies** in aircraft component status and shop visit events, improving data integrity by **30%**.
- Built interactive dashboards in **Power BI** to visualize fleet utilization, component health, and lease status, providing actionable insights to senior management and reducing reporting time by **50%**.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Enhanced a payments operations dashboard by implementing real-time transaction monitoring capabilities, reducing the average time to detect failed payment messages from **4 hours to 15 minutes**.
- Developed **Java Spring Boot** microservices to process and alert on payment message flows, contributing to maintaining strict operational SLAs and audit trail requirements for a financial services client.
- Automated data reconciliation workflows using **Python scripts** and **SQL** queries against PostgreSQL and Oracle databases, ensuring data consistency across critical financial operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
