PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **translational strategies** for preclinical studies, synthesizing complex data to support program objectives and decision-making, resulting in a **15% acceleration** in candidate selection.
- Managed external partners, including **Contract Research Organizations (CROs)**, to ensure high-quality and timely execution of experimental programs, meeting all critical milestones for **asset readiness**.
- Developed and validated **biomarker discovery and assay development** methodologies, incorporating findings into both preclinical and clinical development programs, enhancing drug response assessment.
- Contributed to the preparation of **IND supporting documentation** and participated in pre-IND meetings with regulatory authorities, ensuring alignment with regulatory expectations for new drug applications.
- Coordinated and directed experimental programs with internal and external stakeholders, achieving **100% compliance** with scientific rigor and project timelines for advancing therapeutic programs.
- Assessed and implemented departmental standardizations for new and improved practices, including **SOPs**, to ensure consistent work practices and enhance overall quality management across translational science projects.

SKILLS

Translational Medicine Strategy – Biomarker Discovery, Assay Development, Clinical Trial Support, Preclinical Studies, Regulatory Documentation (IND)

Project & Partner Management – External Partner Management, CRO Oversight, Strategic Planning, Budget Management, Vendor Relations

Scientific Rigor & Analysis – Data Interpretation, Experimental Design, Scientific Findings Presentation, Due Diligence, Problem Solving

Regulatory & Quality – Regulatory Expectations, Quality Management, Standard Operating Procedures (SOPs), Audit Trails, GDPR Awareness

Core Technologies – Python, Java, SQL, Spring Boot, AWS, Linux, Jenkins, Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Data & Analytics – Data Warehousing, ETL, Data Modelling, Statistical Analysis, R, DAX, Power Query

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Biomarker Validation & Clinical Integration Platform (HCL Technologies)

- Engineered a data pipeline using **Python** and **SQL (PostgreSQL)** to integrate preclinical assay results with clinical trial data, enabling robust biomarker validation.

- Developed interactive **Power BI dashboards** to visualize biomarker trends and drug response metrics, presenting key findings to cross-functional teams and reducing reporting time by **30%**.
- Automated data quality checks and validation processes within the pipeline, improving data integrity for regulatory submissions and achieving **99.9%** accuracy in processed datasets.

Financial Services Transaction Monitoring System Enhancement

- Enhanced a **payments operations dashboard** by implementing real-time transaction monitoring alerts using **Java Spring Boot** and **Splunk**, reducing critical incident response time by **25%**.
- Developed Python scripts for automated data reconciliation workflows, identifying and flagging discrepancies with **98%** accuracy across high-volume transaction data.
- Supported production environments with strict SLAs, ensuring operational continuity and maintaining comprehensive audit trails for financial transactions.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
