PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Administered and maintained a **24/7 operational environment**, resolving escalated technical issues from L1/L2 support teams and ensuring adherence to strict service-level agreements (SLAs) with **99.9% uptime**.
- Developed and implemented **industry best-practice infrastructure designs** for a critical Cyber Security programme, enhancing scalability and resilience by **20%** and integrating robust security measures.
- Managed comprehensive **vulnerability assessment and security patch management programmes** across a large Windows Server estate, reducing critical vulnerabilities by **45%** within six months.
- Designed and tested **high-availability and disaster recovery strategies**, achieving a recovery point objective (RPO) of less than **15 minutes** and a recovery time objective (RTO) under **2 hours**.
- Produced detailed **high-quality documentation** for infrastructure configurations, operational procedures, and audit purposes, supporting successful internal and external audits.
- Provided **infrastructure and security performance monitoring** using tools like Splunk and Dynatrace, identifying and resolving performance bottlenecks to meet and exceed agreed SLAs.

SKILLS

Operating Systems – Windows Server 2019/2022/2025, Windows 11, Linux (RedHat/OEL)

Core Infrastructure – Active Directory, Group Policy, Network Protocols, VMware, Storage Technology, Backups (NetBackup)

Automation & Scripting – Python, Ansible, REST APIs, Shell Scripting

Monitoring & Logging – Splunk, Dynatrace, CloudWatch

Databases – PostgreSQL, MySQL, Oracle

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

DevOps Tools – Jenkins, Git, Docker

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Secure Infrastructure Modernization (HCL Technologies)

- Led the design and implementation of a new **secure infrastructure architecture** for a financial services client, integrating **Windows Server 2022** and **Linux (OEL)** environments.
- Automated deployment and configuration management using **Ansible** and **Python** scripts, reducing manual intervention by **60%** and ensuring consistent builds.

- Implemented comprehensive **performance monitoring and alerting** using **Splunk**, tracking key metrics against SLAs and reducing incident resolution time by **30%**.
- Developed detailed **documentation** for system configurations and operational runbooks, enabling smoother knowledge transfer and supporting regulatory compliance.

Payments Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** by developing new features in **Java Spring Boot** and building **REST APIs** to integrate with downstream systems, improving transaction visibility by **25%**.
- Implemented automated data validation and reconciliation workflows using **Python** and **SQL (PostgreSQL)**, reducing data discrepancies by **15%**.
- Provided **production support** for the dashboard, responding to P1/P2 incidents and performing root cause analysis, maintaining **99.95% availability**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
