PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **Java Spring Boot microservices** for a financial-services operations dashboard, enhancing transaction monitoring capabilities and reducing processing errors by **18%**.
- Automated data validation and reporting processes using **Python scripts**, decreasing manual data handling time for operational teams by **30%**.
- Managed and resolved critical production incidents for enterprise applications across **Linux** and **AWS** environments, consistently meeting **99.9%** SLA targets.
- Refactored complex **SQL queries** across PostgreSQL and Oracle databases, improving data retrieval performance for reconciliation workflows by an average of **25%**.
- Designed and implemented interactive **Power BI dashboards** for key performance indicators, enabling stakeholders to visualize operational metrics and identify areas for improvement.
- Supported and maintained integrated enterprise business systems, coordinating change-control management for system configuration updates and ensuring seamless cross-system integrations via **REST APIs**.

SKILLS

Core Programming – Java, Spring Boot, Python, SQL, R, Bash Scripting.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Databases – PostgreSQL, MySQL, Oracle, Data Warehousing.

Business Intelligence – Power BI, DAX, Power Query, Tableau, Data Modelling.

Analytics & ML – pandas, NumPy, scikit-learn, Statistical Analysis, Regression.

Enterprise Systems – ERP Support, REST APIs, Change Management, Incident Response, Production Support.

Observability & Monitoring – Splunk, Dynatrace, CloudWatch.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

HSE Operational Data Analytics Platform (HCL Technologies)

- Engineered a comprehensive data analytics platform using **Power BI** and **Python** to consolidate HSE operational data from disparate sources, enhancing reporting accuracy by **20%**.
- Developed custom **DAX measures** and complex data models within Power BI to create interactive dashboards for resource allocation and patient flow monitoring, reducing report generation time by **40%**.

- Integrated **SQL databases** (PostgreSQL) and internal APIs to automate data ingestion pipelines, supporting real-time decision-making for hospital management.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Enhanced a financial-services operations dashboard by implementing real-time transaction monitoring and alerting for failed payment messages, improving issue detection speed by **50%**.
- Developed **Java Spring Boot** services to process high-volume transaction data, ensuring compliance with audit trail requirements and GDPR awareness.
- Collaborated with business analysts to define requirements for reconciliation workflows and provided post-implementation support for operational stability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
